AstraZeneca India – at a glance

Focus therapy areas

Respiratory, Inflammation and Autoimmunity

We have an unprecedented potential to deliver scientific breakthroughs and transform the lives of people through our 40-year heritage in respiratory science.

Cardiovascular, Renal and Metabolic diseases

We are dedicated to finding distinctive, new approaches that jointly addresses cardiorenal metabolic risks.

Oncology

We are redefining the treatment paradigm to eliminate cancer as a cause of death.

Purpose

At AstraZeneca, our purpose is to push the boundaries of science to deliver life-changing medicines.

Values

Our values are the building blocks of a strong AstraZeneca culture. We are committed to operating with integrity and high ethical standards across all our activities.

Key strategic priorities

Our strategic priorities reflect how we are working to achieve our purpose of pushing the boundaries of science to deliver life-changing medicines.

Safety, Health & Environment

At AstraZeneca, we are committed to promoting a safe, healthy and energising work environment for our people.

In line with AstraZeneca's sustainability strategy for protection of natural resources and reduction of dependence on fossil fuels, AstraZeneca's manufacturing operations entered into an arrangement for long-term renewable power purchasing contract. This arrangement is expected to reduce carbon dioxide emission and the site energy consumption cost.

During the year, new initiatives were introduced on building a safe working environment for our women employees and many health awareness activities were undertaken.

Safe rider workshop in Bengaluru

Social Responsibility

We are aware of the critical role that we must play to help communities pursue sustainable health.

Our employees remain at the forefront of community services, helping us pursue community care goals. Over 900 community members were screened for non-communicable diseases at four health camps at Bengaluru in 2017-18.

Achievements

Inspiring accomplishments

The Government of Karnataka conferred the 'Unnatha Suraksha Puraskara Award 2017' to our manufacturing operations in Bengaluru for 'Best Safety Performance and Management Systems'.

Improving patient lives

AstraZeneca launched 2 new innovative medicines for patients in India in 2017-18:

- Tagrisso™ (Osimertinib), AstraZeneca's novel therapy for advanced or metastatic EGFR T790M non-small cell lung cancer
- Once-daily Xigduo® XR (Dapagliflozin + Metformin Hydrochloride) tablets for comprehensive management of type 2 diabetes

"Over 74 million patients are affected by diabetes today and a significant number do not reach their treatment goals. We believe this novel once-daily combination therapy of Dapagliflozin and Metformin can address an unmet medical need by offering a comprehensive and convenient treatment option for the Indian phenotype patient predisposed to comorbidities such as blood pressure and weight gain. Xigduo® XR is an exciting new addition to our diabetes portfolio and signifies our commitment to improve diabetes care through innovative treatment solutions".

Business

The Company registered sales of ₹ 5,276 million with a growth of 3% achieving a Net Profit of ₹ 259 million, during the year. The current year growth for the Company comes from the focussed therapeutic areas Cardio-Metabolism, Oncology and Respiratory.

The Company's Growth Platforms consist of the innovative drugs like Brilinta, Forxiga, Xigduo, Symbicort, Onglyza, Kombiglyze and the recently launched Tagrisso which together constitutes 64% of total sales. The Launch of Tagrisso in the Lung Cancer segment has helped the Company improve Lung cancer patient's lives and cater to the unmet need in this category.

Brilinta (Ticagrelor) is approved for treatment in Acute Coronary Syndrome (ACS) disease and continued to register rapid growth. The partnership with Sun Pharma has helped boost the reach of the drug to more patients. This franchise crossed the ₹ 1,000 million milestone within 5 years of launch and as per IQVIA Health,

Ticagrelor franchise enjoyed 32% market share (MAT March 2018) while the Oral Anti-Platelets (OAP) market grew by 3.2%, proving the success of the drug.

Forxiga in the dapagliflozin franchise, as part of the SGLT2 class of drug (Sodium Glucose Cotransporter inhibitors), also experienced robust growth. As per IQVIA Health, dapagliflozin franchise is having ~33% market share within SGLT2 class (MAT March 2018), efficacy and wide acceptance among physicians and benefiting numerous diabetic patients.

Xigduo was launched in the last quarter of 2017-18. It is a fixed dose combination drug, which helps to improve glycemic control in adults with type 2 diabetes mellitus, when treatment with both dapagliflozin and metformin is appropriate.

Manufacturing

The manufacturing operations continue to provide strong support for product deliveries in the market. The robust Technology Transfer processes have enabled us to bring local packing of new products like Forxiga and Oxra into the market much faster. It is heartening to note that Manufacturing and Supply of all the factory manufactured products achieved 99% OTIF (On Time & In Full). There has been a seamless launch of products from factory.

We are pleased to inform that the factory has received the renewed cGMP certification from our Regulatory Authorities and we continue to improve our cGMP standards. In our manufacturing operations, we ensure profitability by focusing on environmentally sustainable manufacturing practices, continuous focus on variable and fixed costs and implementation of lean supply chain practices. The manufacturing facility has entered into a Solar Power supply agreement which will result in significant power savings and contribute towards green energy and reduction in Carbon Footprint. Factory Operations has launched the lean manufacturing programme that will help reduce cost and improve efficiency. We would also like to highlight that to prepare the factory for any new growth opportunities for volume uptake, the factory management is executing a plan to upgrade the technical capability of the existing workforce and steer towards a new way of manufacturing in the years ahead. We are also working towards creating a truly diverse and inclusive organisation which reflects our desire to further cement our diversity agenda.

Management Discussion and Analysis Report

Indian Economy

The Indian economy ranks 6th in the Gross Domestic Product (GDP) global rankings, with a GDP of USD 2.6 trillion and 3rd in terms of the Purchasing Power Parity (PPP) only behind China and United States⁽¹⁾. As per the second advanced estimates of the Central Statistics Office (CSO), the economy is expected to grow at 6.6% in the current fiscal ending March 31, 2018, compared to 7.1% in 2016-17⁽²⁾.

The past 18 months were marked by certain fundamental structural changes to the Indian economy, such as Goods and Services Tax (GST) implementation, conclusion of Twin Balance Sheet (TBS) issue, demonetisation etc.⁽³⁾. GST has helped most sectors by making the taxation process simpler by replacing earlier regime of multiple taxes and duties⁽⁴⁾. The TBS issue was addressed by sending the major stressed companies for resolution under the new Indian Bankruptcy Code and by implementing a recapitalisation package to strengthen the public-sector banks⁽⁵⁾.

With the effective implementation of these major reforms, the Indian economy is expected to continue its growth on a high trajectory, with real GDP averaging at 7.7% a year in fiscal years 2018/19 - 2022/23⁽⁶⁾.

India Healthcare Environment

Healthcare has become one of India's largest sectors both in terms of revenue and employment. It comprises of hospital services, pharmaceuticals, diagnostic services and products, medical devices, telemedicine, e-Health services, clinical trials, medical tourism and health insurance segments. The industry is growing at a tremendous pace owing to conducive policies for encouraging FDI, tax benefits and favourable government policies⁽⁶⁾.

Healthcare is provided by a mix of public and private facilities, but majority of the healthcare services in India are served by the private sector. India's public healthcare expenditure is low at 1.4% of GDP against the world average of 6%. Nonetheless, National Health Policy (NHP) 2017 envisages raising it to 2.5% by 2025⁽⁴⁾.

Notable trends contributing to increasing healthcare expenditure include the rise of Non-Communicable Diseases (NCDs), increase in diagnostic requirements and hospitalisation due to NCDs, expansion of healthcare services to Tier II and Tier III cities, emergence of telemedicine, investment in home healthcare, increasing penetration of health insurance, mobile based health delivery, technological initiatives and luxury offerings and services by hospitals⁽⁶⁾.

The emergence of digital health is noteworthy as it attempts to bridge gaps in India's healthcare infrastructure. Growing penetration of smartphones as well as 4G networks are providing a significant boost to the use of mobile platforms for providing healthcare services. Recognising the importance and impact of the same on healthcare, Government of India has adopted digital technology in telemedicine, supply chain management of generic medicines, public awareness applications and management of health records⁽⁷⁾.

Although progress has been made, India's healthcare system still fails to deliver adequate coverage to its 1.3 billion population, especially in rural areas. According to a recent market prognosis report, majority of the healthcare facilities are accessible only to urban population, who comprise 28% of the overall population

of the country. Gaps in public healthcare infrastructure have led to a rise in the out of pocket (OOP) expenditure and consequent impoverishment⁽⁴⁾.

To address increasing OOP expenses, revitalise the public healthcare system, improve healthcare quality and access, the government has introduced 2 major healthcare related initiatives under the 'Ayushman Bharat' programme: NHP 2017 and National Health Protection Scheme (NHPS)⁽⁴⁾. The NHP 2017, also recognised the role of private sector in upgrading the healthcare sector of the nation. Industry experts opine that by combining the advantages of less expense to the government and better service, knowledge and funding from a private partner, the goal of universal healthcare may be achieved faster and more comprehensively through public private partnerships^(8,9).

However, as stated in a recent market prognosis report, implementation is the key and the success of these programmes will depend on the streamlined investments in human resources and technology as well as on the seamless interaction between the central and the state governments for allocation of funds and logistics⁽⁴⁾.

Indian Pharmaceutical Market (IPM)

The USD 19.03 billion (₹1,218 billion) Indian Pharmaceutical industry experienced a value growth of 6.3% in FY 2017-18 over FY 2016-17 as per a March 2018 IPM sales database. Domestic Indian companies dominate the market with a 79.3% share of IPM and a value growth of 6.9%. The value growth for MNCs is at 4.3% in FY 2017-18, which is below previous financial year value growth of 6.8% of MNCs as well as the current year's overall market growth rate. While the Indian companies registered a volume growth of 3.7% in FY 2017-18 as against 3.4% in FY 2016-17, the MNCs experienced a 3.4% decline in volumes⁽¹⁰⁾.

Therapy Areas

Majority of the therapy areas in which AstraZeneca is operating recorded growth similar to or above the market growth during the Financial Year 2017-18. The major contributors to the IPM growth includes Alimentary and Metabolism therapy, Cardio Vascular therapy and Respiratory therapy which grew at 7.7%, 5.9% and 7.5% respectively⁽¹⁰⁾. Amongst all new pharmaceutical brand launches from April 2017 to March 2018, more than 36% value contribution to IPM were from these therapy areas⁽¹⁰⁾.

Pharmaceutical Business Environment – Outlook

Growing disposable income, epidemiological data movement and government's effort and expenditure which are the fundamental drivers of the India Pharmaceutical market are all showing a positive trend. However, owing to pricing pressure and stricter regulation the market growth rates might not be as captivating as the numbers reported during the first half of the decade. The total pharmaceutical market is forecast to grow at a CAGR of 9.7% (±3.0%) over the period 2017-2022⁽⁴⁾.

Government had taken several initiatives to improve the reach of generic medicines, early access of biopharma and Over The Counter (OTC) medicines. The Indian government has taken measures to expand the number of Jan Aushadhi stores and Affordable Medicines and Reliable Implants for Treatment (AMRIT) stores to ensure improved access and affordability of generic medicines. Government has also approved Biopharma Mission to accelerate

biopharmaceutical development in India⁽¹¹⁾. Drugs Consultative Committee, chaired by the Drug Controller General of India (DCGI) in September 2017, decided to set up a sub-committee to recommend provisions/guidelines for classification and regulation of OTC products⁽¹²⁾.

The regulatory environment with tightened quality and promotional standards, strengthened Intellectual Property Rights, along with the strategies to waive off local clinical trials are all expected to drive up foreign investments in the pharmaceutical market.

Government has also taken initiatives to standardise the mode of operation of Pharmaceutical industry by curtailing the unethical practices and the ability of the manufacturers to influence prescribing decisions through Uniform Code of Pharmaceutical Marketing Practices (UCPMP). This code would also inspire the marketing companies to shift gears and move towards a more rounded approach of promotion with stronger focus on science led medical messages and customised approaches with sharper segmentation and targeting of customers⁽⁴⁾.

Growth and Demand Drivers

Rapid growth in Non-Communicable Diseases (NCDs)

The country is experiencing a rapid health transition with a rising burden of Non-Communicable Diseases (NCDs) which are emerging as the leading cause of death in India. WHO reports that 1 in 4 Indians are at a risk of dying from a NCD before they reach the age of 70⁽¹³⁾. The principal NCDs which impose a threat of death and disability are cardiovascular diseases, chronic respiratory diseases, cancer and diabetes⁽⁴⁾.

Increase in diagnosis rate of NCDs

With the increased burden of NCDs, government and the pharmaceutical companies have been implementing well thought measures to improve the diagnosis rate.

According to the NHP 2017, premature mortality can be reduced by 25% before 2025 by setting up screening facilities for oral, breast and cervical cancer and Chronic Obstructive Pulmonary Disease (COPD)⁽⁴⁾. During the year 2016-2017, National Programme for the Prevention and Control of Cancer, Diabetes, Cardiovascular Disease and Stroke (NPCDCS) also implemented various outreach activities at health-camps and primary healthcare facilities to screen people for common NCDs⁽¹⁴⁾.

The Organisation of Pharmaceutical Producers of India (OPPI) reports that, several Pharmaceutical companies are taking initiatives to partner with the government to contain the NCD burden through an integrated ACT approach of Awareness, Capacity Building and Treatment of these diseases which is expected to help in improvement of the effective diagnosis rate⁽¹⁵⁾.

Government Initiatives to improve access to healthcare and essential medicines

A recent market prognosis report suggests that the healthcare policy in the coming years would be shaped by the Ministry of Health and Family Welfare's (MOHFW) NHP 2017. NHP aims to upgrade 150,000 sub-centres to 'health and wellness centre' providing comprehensive healthcare and free essential drugs and diagnostic services. The NHP 2017 would increase its spending on public hospital infrastructure ensuring wider availability of specialty expertise to improve the accessibility to hospital care, both at secondary and tertiary levels⁽⁴⁾.

Pradhan Mantri Swasthya Suraksha Yojana (PMSSY) programme which also aims at bridging gaps in availability of affordable healthcare facilities through infrastructure development, has 2 components – one is setting up of 20 AIIMS centres and the other one is upgradation of 73 Medical Colleges into tertiary care facilities⁽¹⁶⁾.

The Jan Aushadhi stores for the retail market and AMRIT stores serving the hospital sector, would help in ensuring the availability of essential drugs at affordable prices. However, recent industry prognosis report suggests that the impacts of these schemes on the dispensing trends could be felt only if they are scaled up significantly and are effective in overcoming the quality concerns⁽⁴⁾.

Recent and Future Product launches

Over the next couple of years, new product launches in treatments for diabetes, cancer and plaque psoriasis are expected to contribute most to growth. Drug registration process has been simplified by waiving local trials especially when the products address unmet medical needs, or where India is included in global clinical trials. MOHFW is also considering a new rule where new drugs which have already been approved in countries with robust regulatory agencies, such as in Europe and the US might not require Phase III trials in India. Instead, the companies would be expected to conduct comprehensive Phase IV studies after launch⁽⁴⁾.

Expansion of e-pharmacy businesses and pharmacy chains

The vast majority of the 600K retail outlets are small independent businesses. However, organised retail pharmacies have now started making in-roads in the distribution system. Traditional 'Brick and Mortar' stores are also trying to provide wide-range of options to their customers through online channel and simple diagnostic solutions to subdue the challenges posed by e-pharmacies⁽⁴⁾. E-pharmacies on the other hand, are also trying to provide plethora of services to their customers through programmes for disease awareness, diagnostic facilities, HCP appointment bookings and online consultation along with drug delivery⁽¹⁷⁾. The e-pharmacies have increased their footprint across major cities and the growth is expected to rise post clarification of rules governing e-pharmacy sales and establishment of the MOHFW's proposed e-portal.

Expansion of the private hospital sector

A combination of rising income, increasing rates of private health insurance coverage, favourable government initiatives to expand health tourism, and empaneling of private hospitals services for public sector patients, will contribute to growing demand for private inpatient care. The government has acknowledged the need to harness private health resources to achieve the public health goals by provisioning generous tax breaks for the investors in the sector. Leading corporate hospitals are continuing to invest by building new facilities, adding beds and introducing specialist and feeder clinics across the geography⁽⁴⁾.

Increasing Health insurance coverage

Approximately 30% of the Indian population has access to health insurance. More than 75% of them are covered under central government sponsored insurance schemes such as Central Government Health Scheme (CGHS), Employee State Insurance Scheme (ESIS), Rashtriya Swasthya Bima Yojana (RSBY) and other state sponsored schemes⁽¹⁸⁾.

Further, the National Health Protection Scheme (NHPS) announced in the Union Budget Speech 2018, aspires to cover approximately 100 million poor and vulnerable families for secondary and tertiary care hospitalisation. Once implemented, this would be the world's largest government-funded health care programme⁽¹⁹⁾. Such health-financing policies would help in improving the financial security of people, but the success of it may depend on efficiency of its implementation and the effectiveness of synchronising this scheme with the existing schemes.

Risks/Threats

Continuing downward pressure on prices

The National Pharmaceutical Pricing Authority (NPPA) is expected to apply strong pricing pressure on drugs, as in the past. By the closure

of the year 2017, ceiling prices of 851 formulations included in NLEM 2015 had been set⁽⁴⁾. While downward pressure on prices will continue, changes are also expected to be introduced to the pricing system.

Effects of ban on irrational Fixed Dose Combinations (FDCs)

In December 2017, Supreme Court lifted the MOHFW's March 2016 ban on irrational combination of FDCs. An industry report suggests that the ban has caused significant confusion among the players along the distribution system and the pharmaceutical companies have started evaluating their product line by replacing the banned FDCs with approved combinations⁽⁴⁾.

Policies and programmes to encourage the use of generics

Government has been trying to establish generic prescribing regulations, but it has not seen widespread success although some of the states have made in-roads. Government officials have also been hinting at the possibility of prospective legal interventions to ensure patients are prescribed low-priced generics. The plan is expected to provide thrust to Jan Aushadi stores which mostly sell generic products marketed by a generic name. Differential prescription pattern in private and public sector is also a possibility since generic prescribing in private sector could be held back by concerns on product quality⁽⁴⁾.

Business model

The Company is engaged in the business of manufacture, distribution and marketing of pharmaceutical products and co-ordinates clinical trial services with an overseas group company.

During the year under review, total revenue from operations is amounting to ₹ 5,719.9 million out of which sales of pharmaceutical products is ₹ 5,276.5 million (92.2%), income from sale of products on behalf of third parties is ₹ 80.9 million (1.4%), income from sale of distribution rights is ₹ 63 million (1.1%) and sale of services from clinical trials is ₹ 299.5 million (5.2%).

Since all the Company's activities fall within a single business segment, separate segment-wise disclosures are not provided in the financials.

Outlook

In FY 2018-19, AstraZeneca will continue to prioritise investments in its focus areas in-line with its global growth platforms. Accelerating new products is a key priority and the Company is committed to maintaining timelines of key regulatory milestones to align with the global pipeline, subject to conduct of clinical trials, regulatory approvals and reasonable commercial viability.

According to a March 2018 IPM sales database, Antidiabetic Therapy valued at ₹ 112.5 billion is the second largest contributor to IPM, and at 11.8% value growth, is amongst the fastest growing therapy segment in the IPM. The Oral Antidiabetic segment at ₹ 82.8 billion constitutes 73.7% of this market and is growing at 11.3%⁽¹⁰⁾. With the introduction of new brands to the Dapagliflozin and Saxagliptin franchise, the Company would continue to provide additional options for the betterment of diabetic patients. The products are differentiated and enjoy a good acceptance by the medical community. The Company's innovator brand in Oral Anti Platelet (OAP) market, Brilinta® (Ticagrelor), continues to improve its value market share. The Company along with its Ticagrelor partner molecules will strive to deliver the brand's potential to reduce cardiovascular deaths through ongoing clinical studies and sustained focus on plans for market leadership.

With a growth rate of 7.5% in MAT March 2018, the domestic market for respiratory diseases is one amongst the top 5 fastest growing therapies in India. Anti-asthmatics segment in which AstraZeneca

is primarily operating is particularly growing at a rate of 10.8%⁽¹⁰⁾. Increasing air pollution in our cities and rural areas is contributing to a high burden of respiratory diseases. This may present an opportunity to AstraZeneca with Symbicort®, which is an ICS/LABA combination with an innovative delivery mechanism. The Company is building its expertise in this disease area and will need sustained efforts to build a good portfolio of offerings to patients.

Finally, cancer is becoming a major cause of mortality in India. Every year, nearly 1 million new patients are diagnosed with cancer. The Company has in its current Oncology Portfolio, products to provide treatment in the areas of women's cancer and lung cancer. These cancers have a relatively high prevalence in India and the Company hopes to expand its access to more patients subject to scientific and clinical appropriateness.

The Company will continue to emphasise on high standards of sales and marketing practices, maintaining a strong focus on patient needs and safety. The Company will remain committed to high product quality, which underpins the safety and efficacy of its medicines.

The Company will maintain a strong focus on cost optimisation and controls. The Company is undertaking measures to reduce unproductive discretionary and non-customer facing spends. It also continues to develop simple and more efficient processes to encourage accountability and improve decision-making and communication.

The Company would also continue to support AstraZeneca global outreach initiatives like Healthy Lung, Young Health Programme and Early action in Diabetes programmes.

Internal control systems and their adequacy

The Company has internal control systems comprising of authority levels and powers, supervision, checks and balances, policies, procedures and internal audit. During the last year, Company's Internal Finance Control was independently tested and validated by external auditors through the AstraZeneca Financial Control Framework (FCF). The Company ensures that the internal control system is reviewed and updated on an on-going basis through FCF and use of external management assurance services. The Company monitors and manages risks in its interactions with third parties (Vendors and Distributors) through its Third-Party Risk Management (3PRM) framework. This framework provides methodology, guidance and tools for managing third party risks related to Anti-Bribery and Anti-Corruption, Data Privacy, Confidentiality, Trade Control and Competition, Product Communication and Product Security. Internal audits for the Financial Year 2017-18 were carried out by independent auditors, based on an audit plan approved by the Audit Committee. The plan included audit of the depots of the Company, key processes within Operations and Marketing units including enabling functions. The Audit Committee and the Management have reviewed the recommendations of the Internal Auditors and appropriate remediation steps are being taken to implement their recommendations.

Discussion on financial performance with respect to operational performance

During the year ended March 31, 2018, the Company's total sales were ₹ 5,276.5 million as against ₹ 5,137.6 million reported in the corresponding previous year.

The total cost was at ₹ 5,404.4 million during the year as compared to ₹ 5,275.5 million in the previous year. The profit after tax was ₹ 259.1 million during the year compared to ₹ 200.5 million in the previous year.

Development in Human Resources/Industrial Relations

We continue to provide career development and learning opportunities for our employees (1,356 as on March 31, 2018). During the year, the India Development Week was conducted to enable employees to understand how to build careers and gain experiences across functions and businesses. Training programmes to strengthen scientific and technical knowledge of the employees were extensively implemented across the businesses. There continues to be a focus on building gender diversity in the workforce, and building a supportive eco-system for women employees. Additionally, women safety initiatives were also rolled out in the last year. Also, our focus on developing simple and more efficient processes to encourage accountability and improve decision-making/communication process continues across the organisation.

Cautionary Statement

CERTIFICATE ON COMPLIANCE WITH THE CONDITIONS OF CORPORATE GOVERNANCE AS REQUIRED UNDER THE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015

To,
The Members,
AstraZeneca Pharma India Limited
Bengaluru

I have examined all the relevant records of AstraZeneca Pharma India Limited ('the Company') for the purpose of certifying the compliances of the conditions of Corporate Governance by the Company, for the year ended March 31, 2018 as stipulated under Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('the Listing Regulations').

The compliance of the conditions of Corporate Governance is the responsibility of the Management. My examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In my opinion and to the best of my information and explanations given to me, I certify that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations.

I further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Annexure X to Board's Report

Form No. MR-3 SECRETARIAL AUDIT REPORT

For the financial year ended March 31, 2018
Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014

To,
The Members,
ASTRAZENECA PHARMA INDIA LIMITED
(CIN: L24231KA1979PLC003563)

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by AstraZeneca Pharma India Limited (CIN: L24231KA1979PLC003563) (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by AstraZeneca Pharma India Limited for the financial year ended on March 31, 2018 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;

- (xxiii) Dangerous Machines (Regulation) Act, 1983
- (xxiv) Indian Boilers Act, 1923
- (xxv) The Industrial Establishments (National and Festival Holidays) Act, 1963
- (xxvi) The Labour Welfare Fund Act, 1965
- (xxvii) The Karnataka Daily Wage Employees Welfare Act, 2012

2. Environment Related Acts and Rules:

- (i) The Environment Protection Act, 1986
- (ii) The Water (Prevention and Control of Pollution) Act, 1974
- (iii) The Water (Prevention and Control of Pollution) Cess Act, 1977
- (iv) The Air (Prevention and Control of Pollution) Act, 1981
- (v) The Government Order Under Environment (Protection) Act, 1986
- (vi) Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008.
- (vii) The Karnataka Ground Water (Regulation for Protection of Sources of Drinking Water) Act, 1999

3. Economic/Commercial Laws and Rules:

- (i) The Competition Act, 2002
- (ii) The Indian Contract Act, 1872
- (iii) The Sales of Goods Act, 1930
- (iv) The Forward Contracts (Regulation) Act, 1952
- (v) The Indian Stamp Act, 1899
- (vi) The Registrations Act, 1908
- (vii) The Transfer of Property Act, 1882

I have also examined compliances with the applicable clauses of Secretarial Standards on Board and General Meetings (SS – 1 and SS – 2) issued by the Institute of Company Secretaries of India.

During the period under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards, etc. mentioned above. Certain non-material findings made during the course of the audit relating to Labour Laws were addressed suitably by the Management.

Further, I report that with regard to financial and taxation matters, I have relied on the Audit Report, Limited Review Report and the Internal Audit Report provided by the Statutory/Internal Auditor as the case may be.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors which took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least 7 days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes as per the practice followed. However, during the period under report, there was no such case instance.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that the Company has filed form MR 2 for obtaining the approval for the appointment of Mr. Gagan Singh Bedi (being non-resident in India for a continuous period of not less than 12 months immediately preceding the date of his appointment) as Managing Director of the Company. The same is pending to be approved from the Ministry of Corporate Affairs.

I further report that the Company had passed the resolution for voluntary delisting of the shares from all the Stock Exchanges on June 20, 2014 (date of announcement by the Chairman) through Postal Ballot undertaken vide Notice dated May 5, 2014. The Company has also received in-principle approvals from these Stock Exchanges.

However, stay was granted by the Hon'ble Bombay High Court from implementing the delisting proposal by the Company/Promoter Company till such time the Securities Appellate Tribunal (SAT) hears and disposes off the appeal filed by two shareholders in relation to delisting matter. SAT which heard the Appeal on September 11, 2015 had disposed of the same, with the following order:

- (a) Statement made by Counsel for Respondent No.2 (i.e. AstraZeneca Pharma India Limited) and Respondent No.5 (i.e. AstraZeneca Pharmaceuticals AB, Sweden) that they shall not proceed with the delisting of equity shares of Respondent No.2 till completion of investigation and passing order by SEBI on merits, is accepted by SAT.
- (b) Securities and Exchange Board of India (SEBI) shall complete the investigation within a period of six months from September 11, 2015 and pass appropriate order on merits after hearing the parties including the Appellants, as expeditiously as possible.
- (c) If the order to be passed by SEBI on merits is adverse to the Appellants, then the said order shall not be given effect to, from the date of passing the said order till it is communicated to the Appellants and four weeks thereafter.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements,

whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its total comprehensive income (comprising of profit and other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matter

9. The financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in these Ind AS financial statements, are based on the previously issued statutory financial statements for the year ended March 31, 2017 and March 31, 2016 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended). The financial statements for the year ended March 31, 2016 were audited by the predecessor auditor who expressed an unmodified opinion vide report dated May 25, 2016 and the financial statements for the year ended March 31, 2017 were audited by us on which we have expressed unmodified opinion dated May 9, 2017. The adjustment to those financial statements for the differences in accounting principles adopted by the Company on transition to the Ind AS have been audited by us.

Our opinion is not qualified in respect of above matter.

Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Act ("the Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order.
11. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow

AstraZeneca Pharma India Limited

Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- (g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:

- i. The Company has disclosed the impact, if any, of pending litigations as at March 31, 2018 on its financial position in its Ind AS financial statements – Refer Notes 19, 20 and 32.
- ii. The Company has long-term contracts as at March 31, 2018 for which there were no material foreseeable losses. The Company did not have any derivative contracts as at March 31, 2018.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2018.
- iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2018.

Annexure A to Independent Auditors' Report

Referred to in paragraph 11(f) of the Independent Auditors' Report of even date to the members of AstraZeneca Pharma India Limited on the financial statements for the year ended March 31, 2018

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of AstraZeneca Pharma India Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing

deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation

AstraZeneca Pharma India Limited

of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over

financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure B to Independent Auditors' Report

Referred to in paragraph 10 of the Independent Auditors' Report of even date to the members of AstraZeneca Pharma India Limited on the financial statements as of and for the year ended March 31, 2018

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of immovable properties, as disclosed in Note 3 on fixed assets to the financial statements, are held in the name of the Company.
- ii. The physical verification of inventory excluding stocks with a third party has been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with a third party, these have substantially been confirmed by that party. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed thereunder to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues, including provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess, goods and service tax (with effect from July 1, 2017) and other material statutory dues, as applicable, with the appropriate authorities.

AstraZeneca Pharma India Limited

(b) According to the information and explanations given to us and the records of the Company examined by us, the particulars of dues of income tax, service tax, duty of customs, value added tax as at March 31, 2018 which have not been deposited on account of a dispute, are as follows:

viii. As the Company does not have any loans or borrowings from any financial institution or bank or Government, nor has it issued any debentures as at the balance sheet date, the provisions of Clause 3(viii) of the Order are not applicable to the Company.

ix. The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.

xi. The Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.

xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of

the Act. The details of such related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.

xv. The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.

xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

1. General Information

AstraZeneca Pharma India Limited ('the Company') is a public limited company domiciled in India having its registered office in Bangalore. The Company's equity shares are listed in National Stock Exchange of India Limited (NSE) and Bombay Stock Exchange Limited (BSE).

The Company is engaged in the business of manufacture, distribution and marketing of pharmaceutical products.

2. Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements.

These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1. Basis of preparation

(a) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements up to year ended March 31, 2017 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act (IGAAP or Previous GAAP).

These financial statements are the first financial statements of the Company under Ind AS. Refer Note 44 for an explanation of how the transition from IGAAP to Ind AS has affected the Company's financial position as at March 31, 2017 and April 1, 2016 and financial performance and cash flows for the year ended March 31, 2017.

The financial statements are authorised for issue by the directors as on May 21, 2018.

(b) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities measured at fair value;
- defined benefit plans – plan assets measured at fair value; and
- share-based payments – measured at fair value.

Accounting policies have been applied consistently to all periods presented in these financial statements, including the preparation of the opening Ind AS Balance Sheet as at April 1, 2016 being the 'date of transition to Ind AS'. All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets/inputs for processing and their realisation of cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Amounts included in the financial statements are reported in millions of Indian rupees except share and per share data, as per the requirement of Schedule III, unless otherwise stated. The sign '0.0' in the financial statements indicates that the amounts involved are below ₹ one lac and the sign '-' indicates that amounts are nil.

(c) Standard issued but not yet effective

Ind AS 115, 'Revenue from Contract with Customers': On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach – Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors'.
- Modified retrospective approach – Retrospectively with cumulative effect of initially applying the standard recognised at the date of initial application (Cumulative catch-up adjustment).

The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company is evaluating the requirements of the standard and the impact on the financial statements.

2.2. Critical judgements and estimates

The preparation of financial statements in conformity with Ind AS requires that the management make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future years. In particular, information about areas of significant estimation uncertainty and critical judgements in applying accounting policies that have a significant effect on the amounts recognised in the financial statements are included below:

a) Defined benefit plans and compensated absences:

Measurement of obligation towards defined benefit plans and compensated absences are determined based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. Significant assumptions includes determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, defined benefit obligations and compensated absences are sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Refer note 35.

b) Expected credit losses on financial assets:

The impairment provisions on financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgement in making these assumptions and selecting inputs to be used in the impairment calculation, based on the Company's past history, customers' creditworthiness, existing market conditions as well as forward-looking estimates at the end of each reporting period. Refer note 38.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

c) **Recoverability of deferred tax assets:** The Company has unused business losses and unabsorbed depreciation under the Income Tax Act, 1961. Consequently, the Company has been discharging its income tax liability as per MAT provisions under Section 115JB of the Income Tax Act, 1961. Based on expectation of future taxable profits, the Company has recognised deferred tax assets on brought forward losses, unabsorbed depreciation and MAT. Refer note 8.

d) **Indirect Taxes – Provisions and contingent liabilities:** The Company has disputed claims under indirect tax laws. Management discloses amounts claimed by the tax authorities as either contingent liabilities or recognizes them as provisions, based on subject matter under dispute, management's experience with disputes of a similar nature and advice from tax experts. Classification of such disputed claims may vary subsequently. Refer notes 19 and 32.

2.3. Property, plant and equipment

Freehold land is carried at historical cost and not depreciated but is assessed for impairment, if any, at the balance sheet date.

All other items of Property, plant and equipment are stated at historical cost less depreciation, and impairment loss, if any. Historical cost comprises the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management. Subsequent costs related to an item of Property, plant and equipment are capitalised as part of the carrying amount of the item if the recognition criteria are met.

Upon first-time adoption of Ind AS, the Company has elected to measure all its Property, plant and equipment at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2016.

An item of Property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Statement of Profit and Loss within 'Other income' or 'Other expenses'.

The cost of Property, plant and equipment which are not ready for their intended use, are presented as capital work-in-progress.

Depreciation is calculated using the straight-line method, from the date of capitalisation, to allocate the cost of Property, plant and equipment, net of their residual values, over the estimated useful lives of the assets. The estimates of useful lives have been determined based on a technical evaluation by management's expert, which are different from those specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The depreciation charge for each period is recognised in the statement of profit and loss. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

The estimates of useful lives of property, plant and equipment are as follows:

Class of asset	Useful life in years
Buildings	6 to 20
Roads and culverts	10
Plant and machinery	5 to 10
Vehicles	5
Office equipment	2 to 10
Furniture and fixtures	10

2.4. Intangible assets

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. License for use and application of know-how and trademark are being amortised on straight-line method over its useful life of 60 months as specified in the contract, from the date it was available for use.

Upon first-time adoption of Ind AS, the Company has elected to measure its intangible assets at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 1, 2016.

2.5. Impairment of assets

Assessment is done at each balance sheet date as to whether there is any indication that a non-financial asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset or Cash Generating Unit (CGU) is made. Recoverable amount is higher of an asset's or CGU's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For the purpose of assessing impairment, the recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent from those of other assets or groups of assets. The smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a CGU. An asset or CGU whose carrying value exceeds its recoverable amount is considered impaired and is written down to its recoverable amount. Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

2.6. Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements are presented in Indian Rupee (₹) which is functional and presentation currency of the Company.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of transaction. Foreign exchange gains and losses arising from the settlement of such transactions and from the translation of monetary

AstraZeneca Pharma India Limited

Notes to the Financial Statements

assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in Statement of Profit and Loss.

2.7. Segment Reporting

The Company is engaged in the manufacture, trading and sale of pharmaceutical products and also provides clinical trial services to an overseas group company. For internal reporting purposes management has organised the Company into a single reportable segment i.e. Healthcare segment.

2.8. Inventories

Inventories are stated at the lower of cost or net realisable value. The cost of finished goods and work-in-progress comprises of cost of raw materials, direct labour, other direct costs and related production overheads. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products. Cost of all categories of inventories have been determined using the moving weighted average cost method.

Inventories held for sale on behalf of third parties have been disclosed as Other receivables under the head Other current assets.

2.9. Employee Benefits

(a) Defined contribution plans

Provident Fund: Provident fund contributions for non-management staff are made to the regulatory authorities, where the Company has no further obligations beyond the contributions made. Such benefits are classified as defined contribution plans. Contributions to the Provident Fund Scheme is recognised in Statement of Profit and Loss on an accrual basis.

Superannuation: The Company makes contributions to the Superannuation Scheme for management employees participating in the scheme, a defined contribution scheme, administered by external fund managers, based on a specified percentage of eligible employees' salary. The Company's obligation to the scheme is restricted to contributions made to the scheme, which are recognised in the statement of profit and loss on an accrual basis.

(b) Post employment defined benefit plans

Provident Fund: In respect of management staff, the Company makes contributions to a trust administered by the Company. Company's contributions to the trust administered by the Company are recognised as plan assets. Trust invests in designated investments permitted by Indian Law. The rate at which the annual interest is payable to the beneficiaries by the trust is administered by the Government. The Company is obligated to make good the shortfall in statutory rate prescribed by the Government and rate of interest declared by the trust. The Company also has an obligation to fund any shortfall in the fair value of plan assets as compared with the defined benefit obligation.

The Company's obligation is actuarially determined at the end of every year using the projected unit credit method. Remeasurement gains and losses are recognised in the

period in which they occur, directly in Other Comprehensive Income (OCI). They are included in the retained earnings in the statement of changes in equity and in the balance sheet.

Gratuity: The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan"). The Gratuity Plan provides for lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's last drawn salary and tenure of employment with the Company. The Company makes contributions towards gratuity into an approved gratuity fund administered by an external fund manager. The contributions made to the trust are recognised as plan assets. The defined benefit obligation, if any recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value of plan assets.

The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year. Remeasurement gains and losses including those arising from changes in actuarial assumptions are recognised in the period in which they occur, directly in Other Comprehensive Income (OCI). They are included in the retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised during the same period in the Statement of Profit and Loss as past service cost.

(c) Other long-term employee benefits

Compensated Absences: The employees of the Company are entitled to other long-term benefit in the form of paid annual leave as per the policy of the Company. Employees are entitled to accumulate leave balance up to the upper limit as per the Company's policy which can be carried forward up to retirement/resignation. Leave encashment for a certain category of employees gets triggered on an annual basis, if the accumulated leave balance exceeds the threshold as defined in the Company's policy. At the time of retirement, death while in employment or on termination of employment, leave encashment vests equivalent to amount payable for number of days of accumulated leave balance as per the Company policy as applicable. Liability for such benefits is provided on the basis of actuarial valuation at the Balance Sheet date, carried out by an independent actuary using projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

The obligation for compensated absences are presented under current liabilities in the balance sheet as the Company does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Long-term service awards: The employees of the Company are entitled to long term service awards as per the policy of the Company. Liability for such benefits is provided on the basis of actuarial valuation at the Balance Sheet date, carried out by an independent actuary using projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

(d) Other short-term employee benefits

Other short-term employee benefits are expected to be paid in exchange for the services rendered by employees and are

AstraZeneca Pharma India Limited

Notes to the Financial Statements

recognised in the year during which the employee rendered the services. These benefits are in the form of performance incentives and compensated absences.

(e) Other benefits

Termination Benefits: Termination benefits, in the nature of voluntary retirement benefits or those arising from restructuring, are recognised in the Statement of Profit and Loss when the Company has a present obligation as a result of past event, when a reliable estimate can be made of the amount of the obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Termination benefits generally include post-retirement healthcare benefits provided to qualifying employees till the contractual retirement age. Such benefits falling due more than 12 months after the end of the reporting period are discounted to present value. The expected costs of the healthcare benefits are determined based on an actuarial valuation using the Projected Unit Credit (PUC) method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit and Loss in the period in which they arise.

2.10. Employee share-based payments

Stock-based compensation cost is measured at fair value at the date when the grant is made to qualifying employees by AstraZeneca Plc, United Kingdom ('Ultimate holding company') using modified binomial model.

Expense arising from equity-settled share-based payment transactions are recognised over the vesting period as employee benefits expense with a corresponding credit to employee share compensation reserve. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.

The stock-based compensation cost is recharged to the Company upon exercise, which is adjusted against employee share compensation reserve.

2.11. Revenue from operations

Revenue is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the activities as described below.

Sale of products: Revenue from sale of products is recognised when the significant risks and rewards of ownership in the goods have been transferred to the buyer as per the terms of the contract, which coincides with the despatch of goods. Revenue is recognised net of trade discounts, rebates, sales tax and Goods and Services Tax (GST). Excise duty is included in revenue and forms part of cost of manufacturing goods in accordance with Ind AS.

Sale of services: The Company derives its service income from clinical trials provided to an overseas group company. The income from clinical trials is based on a 'cost plus' model as agreed with the said group company. As per the agreement, costs incurred internally are charged with a mark-up and those

incurred externally are charged at actual. Revenue from services is recognised when the service is performed in accordance with the terms of the arrangement with the group company.

Revenue in excess of billing on service contracts is recorded as Unbilled revenue and is included in Other current financial assets. Billing in excess of revenue that is recognised on service contracts is recorded as deferred revenue until the above revenue recognition criteria are met and is included in Other current liabilities.

Income from sale of distribution rights: The Company recognises income from sale of promotion and distribution rights in the Statement of Profit or Loss under the head 'other operating revenue' when significant risks and rewards have been transferred to the customer and the Company has satisfied its performance obligations in relation to transfer of such rights to the customer.

Income from sale of products on behalf of third parties is recognised under the head 'other operating revenue', representing net margins earned on such sales as per the contractual terms agreed with such third parties.

2.12. Other Income

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of financial asset. Interest income is included under the head 'Other income' in the Statement of Profit and Loss.

Income from sale of trademarks and know-how is recognised in the Statement of Profit and Loss on fulfilment of obligations as per the underlying agreement with the buyer.

2.13. Operating leases

As a lessee:

Leases in which significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor:

Lease income where the Company is a lessor in an operating lease arrangement is recognised as income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases. The respective leased assets are included in the Balance Sheet based on their nature.

2.14. Earnings per share

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the

AstraZeneca Pharma India Limited

Notes to the Financial Statements

net profit for the year attributable to equity shareholders and the weighted average numbers of shares outstanding during the year are adjusted for the effects of dilutive potential equity shares, if any.

2.15. Current and Deferred tax

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period.

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences except when they arise from initial recognition of goodwill. Deferred income tax is also not recognised if it arises from initial recognition of an asset or liability in a transaction other than business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credit to the extent that it is probable that future taxable amounts will be available against which such deductible temporary differences, unused tax losses and unused tax credits can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable amounts will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable amounts will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current and deferred tax relating to items recognised outside the profit or loss are recognised either in other comprehensive income or in equity, in correlation with the underlying transaction.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax asset on Minimum Alternate Tax (MAT) credit is recognised only when it is probable that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the deferred tax asset relating to MAT credit is written down to the extent there is no longer a convincing evidence that

the Company will pay normal income tax during the specified period.

2.16. Provisions and Contingent Liabilities

Provisions: Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are measured at the best estimate of the expenditure required to settle the obligation at the Balance sheet date.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.17. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

2.18. Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contract that gives rise to financial assets and liabilities. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

a) Financial Assets:

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are immediately recognised in Statement of profit and loss.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

De-recognition of financial asset and financial liabilities

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised when the obligation specified in the contract is discharged or cancelled or expires.

Impairment of financial assets

The Company assesses at each balance sheet date whether a financial asset or a group of financial assets is impaired. Ind AS 109 ('Financial instruments') requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected credit losses for all trade receivables using a provision matrix approach as permitted by Ind AS 109. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

b) Financial Liabilities:

Financial liabilities are subsequently carried at amortized cost using the effective interest rate method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to short maturity of these instruments.

2.19. Trade and other payables

The amounts represent liabilities for goods and services provided prior to the end of financial year. The amounts are unsecured and are usually paid within the credit period given by the vendors. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.20. Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.21. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of reporting period.

2.22. Trade receivables

Trade receivables are initially recognised at their transaction price (fair value) and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

2.23. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interests. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset to its highest and best use or by selling it to another market participant that would use the asset to its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Fair-value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarised in the following note:-

- Financial Instruments (including those carried at amortised cost): Refer note 37.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

(All amounts in ₹ million, except per share and share data)

- (b) Provision for taxation matters is created in respect of likely adverse outcome of indirect tax cases pending against the Company. The provision is based on management's estimate of probable outflow on account of settlement after considering advice obtained from external consultants of the Company. Management cannot estimate with certainty the timing of the final outcome.
- (c) Other obligations as at April 1, 2016 included a provision created towards expected claims from customers in respect of charge backs. The provision was created based on management's best estimate of the claims expected to be received from customers. As the Company did not receive any claims in the year ended March 31, 2017, the same has been written back during the previous year.
- (d) The Company had received a notice from Bruhat Bangalore Mahanagara Palike (BBMP) on August 7, 2014, followed by reminder notices, demanding ₹ 70.8 as improvement charges for its factory land. The Company filed a writ petition with the Honourable High Court of Karnataka ('Court') challenging the levy of aforesaid improvement charges. The Court had granted an interim order of stay on said demand notice. The Company's writ petition remains pending in the Court, but based on legal advice, management, as a prudent accounting practice has provided for the amount claimed. The Company intends to pursue the necessary legal recourse in this matter.

Notes:

- The discount rate is based on the prevailing market yield on Government securities as at the balance sheet date for the estimated term of obligations.
- The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.
- IALM represents Indian Assured Lives Mortality.

i) Actuarial risk and sensitivity

These plans typically expose the Company to actuarial risks such as: interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on Government bonds. If the plan assets underperform this yield, this will create a deficit. The Company maintains plan asset for Gratuity through insurance company and for Provident fund is managed through trust.
Interest risk	A decrease in the bond interest rate will increase the plan liability.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The Company ensures that the investment positions are managed within the asset-liability matching framework that has been developed to achieve long-term investments that are in line with the obligations under employee benefit plans. Within this framework, the Company's asset-liability matching objective is to match assets to the defined benefit obligations by investing in plan asset managed by an insurance company and through the Provident Fund trust.

A sensitivity analysis for significant assumptions:

Particulars	Gratuity			Provident Fund		
	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
Impact on defined benefit obligation [Increase/ (decrease)]						
Discount rate						
1% Increase	(24.5)	(17.4)	(16.9)	(2.1)	(14.4)	(13.3)
1% Decrease	27.6	19.5	19.0	13.2	18.2	16.8
Salary increase rate						
1% Increase	22.6	0.5	1.3	-	-	-
1% Decrease	(21.1)	(12.9)	(13.3)	-	-	-
Interest Rate Guarantee						
1% Increase	-	-	-	48.4	16.7	15.4
1% Decrease	-	-	-	(25.4)	(14.2)	(13.1)

Sensitivities due to mortality and withdrawals are not material and hence impact of change is not disclosed.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

36. Employees Restricted Stock Plan

The Ultimate Holding Company, AstraZeneca Plc. United Kingdom (AZUK), listed on London Stock Exchange had introduced a Long-Term Incentive Stock Compensation Plan in the form of Restricted Stock Units (RSUs) to attract and retain the employees. As per the plan, the awards are granted to qualifying management employees of the Company. One restricted stock unit represents one AZUK share. When the stock units vests after three years, restricted stock units are automatically exchanged for the same number of AZUK shares. Moreover, the RSUs do not expire. There is no performance criteria. After the vesting period, the employees are free to either hold or sell the shares.

The expense recognised for employee services received during the year is shown in the following table:

The management assessed that carrying amount of cash and cash equivalents, trade receivables, trade payables and other current liabilities approximate their fair values largely due to the short-term maturities of these instruments.

For financial assets that are measured at fair value, the carrying amounts are equal to the fair values.

38. Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors review and agree on policies for managing each of these risks, which are summarised below.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

(All amounts in ₹ million, except per share and share data)

i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices such as currency risk.

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2018 and March 31, 2017.

Foreign Currency Exposure

Foreign currency risk is the risk that the future cash flows of a financial asset or a financial liability will fluctuate because of changes in foreign exchange rates. The operations of the Company are carried out mainly in India. However, the Company exports services to foreign customers and receives certain services from foreign vendors which are denominated in USD, GBP, EUR. Hence the Company is currently exposed to the currency risk arising from fluctuations in the exchange rates between the above currencies and Indian rupee. The Company does not enter into any forward contracts considering the total exposure is not material to the operations of the Company. Foreign currency exposure which was not hedged, are as follows:

Foreign currency exposure as on March 31, 2018

Underlying asset/liability	Currency	As at March 31, 2018		As at March 31, 2017		As at April 1, 2016

* Amount below rounding off norms adopted by the Company.

Foreign currency sensitivity

The following table demonstrates the sensitivity to a reasonable possible change in USD exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

	Change in exchange rate	As at March 31, 2018		As at March 31, 2017		As at April 1, 2016	
		Effect on profit before tax	Effect on equity	Effect on profit before tax	Effect on equity	Effect on profit before tax	Effect on equity

Decrease -5%	-5%	(4.5)	(3.0)	(3.1)	(2.1)	(3.0)	(1.9)

The Company is not subject to any other market risk

ii. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities primarily with respect to trade receivables, including balances with banks and other financial assets.

a. Trade Receivables

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on credit rating scorecard and individual credit limits are defined in accordance with this assessment. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of account receivable.

An impairment analysis is performed at each reporting date on an individual basis for third party receivables. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables, refer Note 11.

The ageing analysis of the receivables (gross of provision) has been considered from the date the invoice falls due.

b. Cash and Bank balances, other financial assets

Credit risk from balances with banks and other financial assets is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counter parties and within the limits assigned. Company follows a conservative philosophy and shall aim to invest surplus rupee funds in India only in time deposits with well-known and highly rated banks. The duration of such time deposits will not exceed 365 days other the margin money deposits.

The following table summarizes the change in the loss allowances for other financial assets:

43. As previously disclosed, by way of a letter dated March 1, 2014, AstraZeneca Pharmaceuticals AB, the promoter of the Company had proposed a voluntary delisting of the Company's equity shares from the National Stock Exchange and the Bombay Stock Exchange. Such proposed delisting is subject to an on-going inquiry with SEBI and that inquiry has not yet been resolved. In any event, based on the passage of time, any potential future proposal for voluntary delisting of the Company would need to be conducted de novo.

44. First-time adoption of Ind AS

These financial statement for the year end March 31, 2018 are the first financial statement prepared in accordance with Ind AS.

The accounting policies set out in Note 2 have been applied in preparing the financial statement for year ended March 31, 2018, the comparative information presented in these financial statements for the year ended March 31, 2017 and in the

preparation of opening Ind AS balance sheet at April 1, 2016 (the Company's date of transition to Ind AS). The Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

Ind AS 101, *First-time adoption of Indian Accounting Standards* allows first time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. Set out below are the applicable Ind AS 101 optional exemptions applied in the transition from previous GAAP to Ind AS.

AstraZeneca Pharma India Limited

Notes to the Financial Statements

(All amounts in ₹ million, except per share and share data)

(a) Ind AS optional exemptions:

(i) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38, Intangible Assets. Accordingly, the Company has elected to measure all of its property, plant and equipment at their previous GAAP carrying value. The previous GAAP carrying amount of intangible assets was Nil.

(ii) Share based payment

The Company has elected not to apply Ind AS 102, *Share-based Payment*, to Restricted Stock Units (RSU) that vested prior to the date of transition to Ind AS.

(a) Ind AS mandatory exceptions:

(i) Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with Indian GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with Indian GAAP. The Company made estimates for following items in

accordance with Ind AS at the date of transition as these were not required under Indian GAAP:

- 1) Impairment of financial assets based on expected credit loss model; and
- 2) Share-based payments. Refer Note C (i) below.

(ii) Derecognition of financial assets and liabilities:

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109, *Financial Instruments* prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

(iii) Classification and measurement of financial assets:

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

B. Reconciliations between IGAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

Reconciliation of total equity as at March 31, 2017 and April 1, 2016:

Net cash flows from/(used in) financing activities	(2.2)	2.2	-
Net increase/(decrease) in cash and cash equivalents	383.5	-	383.5
Cash and cash equivalents as at April 1, 2016	762.0	-	762.0
Cash and cash equivalents as at March 31, 2017	1,145.5	-	1,145.5

C. Notes to first time adoption

(i) Expected credit loss

As per Ind AS 109, the Company is required to apply expected credit loss model for recognising the allowance for doubtful debts. As a result the allowance for doubtful debts increased and total equity has decreased by ₹ 8.1 as at April 1, 2016 and ₹ 6.0 as at March 31, 2017. Profit for the year ended March 31, 2017 has increased by ₹ 2.1.

(ii) Rent equalisation reserve

As per Ind AS 17, Leases, the Company is not required to recognise lease rentals on a straight line basis, if the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. The Company's lease escalations are in line with the general inflation rate, as a result the rent equalisation reserve created under previous GAAP is reversed. Consequently, the total equity has increased by ₹ 8.2 as at April 1, 2016 and ₹ 10.7 as at March 31, 2017. Profit for the year ended March 31, 2017 has increased by ₹ 2.5.

(iii) Employee stock compensation plan

The ultimate holding company has allotted RSUs to the employees of the Company to attract and retain the certain employees. The Company recorded expense based on the recharge from AZ UK Limited, United Kingdom with the credit to payables. As per Ind AS 102, the Company has recorded fair value of RSUs provided to employees by the ultimate holding company at fair value of the RSUs on grant date over the vesting period. The amount recharged by the fellow subsidiary company is debited to employee share compensation reserve. Consequently, the total equity increased by ₹ 26.2 as at April 1, 2016 and ₹ 30.0 as at March 31, 2017. The profit for the year ended March 31, 2017 decreased by ₹ 3.8.

(iv) Reclassification of net actuarial (gain)/loss on defined benefit plan to other comprehensive income

Under Ind AS, the actuarial gains and losses, return on plan assets, excluding the amounts included in the net interest expense on the net defined benefit liability and the impact of

change in asset ceiling are recognised in other comprehensive income instead of profit or loss. Under previous GAAP these remeasurement gains and losses were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended March 31, 2017 increased by ₹ 10.5. There is no impact in total equity as at March 31, 2017 and April 1, 2016.

(v) Deferred Tax

Under IGAAP, deferred tax assets on unabsorbed depreciation and unused business losses were recognised only to the extent that there was virtual certainty supported by convincing evidence that sufficient future taxable income would be available against which such deferred tax assets could be realised. Ind AS requires deferred tax asset to be recognised for unused tax losses, unabsorbed depreciation and unused tax credits to the extent that it is probable that future taxable profits will be available against which such items can be utilised. As a result of change in the recognition of deferred tax asset on such items, equity as at April 1, 2016 has increased by ₹ 463.5 and as at March 31, 2017 is ₹ 402.2. The profit for the year ended March 31, 2017 has decreased by ₹ 61.3.

(vi) Others

Other mainly include adjustment on account of discounting of non-current interest free security deposits, employee loans, fair value of equity instruments etc.

(vii) Excise duty

Under previous GAAP, revenue from sale of products was presented net of excise duty. Under Ind AS, revenue from sale of goods is presented inclusive of excise duty, wherever applicable. The excise duty is presented on the face of the statement of profit and loss as part of expenses. This change has resulted in increase in total revenue and total expenses for the year ended March 31, 2017 by ₹ 49.5. There is no impact on the total equity and profit.

45. Previous year's figures have been regrouped/reclassified wherever necessary to conform with the current year classification.
