

What science can do

AstraZeneca Annual Report and Form 20-F Information 2017

A global biopharmaceutical business delivering medicines to patients through innovative science and excellence in development and commercialisation.

Our Purpose is to push the boundaries of science to deliver life-changing medicines. We want to be valued and trusted by our stakeholders as a source of great medicines over the long term.

Our strategic priorities

Reflect how we are working to achieve our Purpose

- 1. Achieve Scientific Leadership
- 2. Return to Growth
- 3. Be a Great Place to Work

A science-led innovation strategy

□ Strategy and Key Performance Indicators from page 17.

Distinctive R&D capabilities: Small molecules, oligonucleotides and other emerging drug platforms, as well as biologic medicines, including immunotherapies, and innovative delivery devices

11 new molecular entities (NMEs) in Phase III/ pivotal Phase II or under regulatory review covering 19 indications

2017	11
2016	12
2015	15
2014	13

Broad R&D platform in three main areas

□ Achieve Scientific Leadership from page 23 and Therapy Area Review from page 46.

Oncology
Our ambition is to eliminate cancer as a cause of death through scientific discovery and collaborations. We seek to achieve this by means of exploiting the power of four scientific platforms

Cardiovascular & Metabolic Diseases
We are following the science to transform how cardiovascular, renal and metabolic diseases are understood, interact and impact one another

Respiratory
We aim to transform the treatment of respiratory disease with our growing portfolio of medicines and scientific research targeting disease modification

We are also selectively active in the areas of autoimmunity, neuroscience and infection

Portfolio of specialty and primary care products (Product Sales)

Oncology	Cardiovascular & Metabolic Diseases	Respiratory	Other Disease Areas

Commercial Highlights: Growth Platforms grew by 5% (6% at CER) in 2017 and represented 68% of Total Revenue

Return to Growth from page 26.

Emerging Markets: Sales growth of 6% (8% at CER), in line with long-term ambitions. China sales in the year grew by 12% (15% at CER), supported by the launches of new medicines

New CVMD: Sales growth of 9% (9% at CER). Strong performances from *Farxiga* and *Brinta*, with sales exceeding \$1 billion in 2017
Respiratory: Sales declined by 1% (1% at CER). Sales of *Symbicort* declined by 6% (6% at CER) and *Pulmicort* sales rose by 11% (12% at CER)

Japan: 1% growth in sales (4% at CER), underpinned by the growth of *Tagrisso* and *Forxiga*, partly mitigated by the impact of the entry of generic competition to *Crestor* in the second half of the year

New Oncology: Sales growth of 98% (98% at CER). Sales of *Tagrisso* reached \$955 million to become AstraZeneca's largest-selling Oncology medicine

Our talented employees:

Committed to achieving our Purpose in a sustainable way and upholding our Values by fostering a strong AstraZeneca culture

Be a Great Place to Work from page 34.

61,100

employees

2016: 59,700

2015: 61,500
