The FCA only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the rules in the PRM. Such approval should not be considered as an endorsement of the Issuers or the Guarantor, nor as an endorsement of the quality of any Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in such Notes. This Base Prospectus is valid for a period of twelve months from the date of approval.

The Programme has been rated by S&P Global Ratings UK Limited ("**S&P**") and by Moody's Investors Service Limited ("**Moody's**"), as more fully set out in "*Description of the Programme*" below. Each of S&P and Moody's is established in the UK and registered under Regulation (EC) No 1060/2009 on credit rating agencies as it forms part of domestic law of the UK by virtue of the EUWA (the "**UK CRA Regulation**"). Tranches of Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the ratings assigned to the Programme as described above or the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be (1) issued or endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or by a credit rating agency which is certified under the EU CRA Regulation and/or (2) issued or endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or by a credit rating agency which is certified under the UK CRA Regulation, will be disclosed in the relevant Final Terms.

In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (1) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation. In general, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation or (1) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (2) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Each potential investor in the Notes must make its own assessment as to the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes and the merits and risks of investing in the Notes on the basis of the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types

of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them. All figures included in this Base Prospectus which express growth rates are expressed at constant exchange rates unless otherwise stated.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) acting as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

NOTICE TO CANADIAN INVESTORS

The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Base Prospectus (including any amendment thereto) contains a misrepresentation, **provided that** the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

IMPORTANT EEA RETAIL INVESTORS

If the relevant Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**EU MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II. Consequently, no key information document required by Regulation (EU) No. 1286/2014 (the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

IMPORTANT UK RETAIL INVESTORS

If the relevant Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is not a professional client as defined in point (8) of Article 2(1) of UK MiFIR. Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook ("**DISC**") for offering, selling or distributing the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the Notes or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024.

EU MIFID II PRODUCT GOVERNANCE/TARGET MARKETS

The Final Terms in respect of any Notes may include a legend entitled "EU MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to EU MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue of Notes about whether, for the purpose of the EU MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**EU MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the EU MiFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE/TARGET MARKETS

The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules (as defined below) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

UK BENCHMARKS REGULATION

Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 as it forms part of domestic law of the UK by virtue of the EUWA (the "**UK Benchmarks Regulation**"). If any such reference rate does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by FCA pursuant to Article 36 of the UK Benchmarks Regulation. The registration status of any administrator under the UK Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuers do not intend to update the Final Terms to reflect any change in the registration status of the administrator.

PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE

The Final Terms in respect of any Notes may include a legend entitled "**Singapore Securities and Futures Act Product Classification**" which will state the product classification of the Notes pursuant to Section 309B(1) of the Securities and Futures Act 2001 of Singapore (as modified or amended from time to time, the "**SFA**"). If applicable, the relevant Issuer will make a determination and provide the appropriate written

notification to "relevant persons" in relation to each issue about the classification of the Notes being offered for the purposes of Section 309B(1)(a) and Section 309B(1)(c) of the SFA. Any such legend included on the relevant Final Terms will constitute notice to "relevant persons" for the purposes of section 309B(1)(c) of the SFA.

RISK FACTORS

Prospective investors should read the entire Base Prospectus. Investing in Notes issued under the Programme involves certain risks. Set forth below are risk factors that AstraZeneca believes are the key risks involved in an investment in the Notes. In these risk factors "AstraZeneca" shall mean AstraZeneca PLC (as Issuer or as Guarantor, as the case may be) and its subsidiaries, including AstraZeneca Finance.

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

Prospective investors should consider carefully the following:

RISKS RELATING TO FORWARD-LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements about AstraZeneca. AstraZeneca believes such forward-looking statements, identified by words such as 'anticipates', 'believes', 'expects' and 'intends', are based on reasonable assumptions. However, forward-looking statements involve inherent risks and uncertainties such as those summarised below. They relate to events that may occur in the future, that may be influenced by factors beyond AstraZeneca's control and that may have actual outcomes materially different from AstraZeneca's expectations.

RISKS RELATING TO ASTRAZENECA AND ITS BUSINESS

The pharmaceutical sector is inherently risky and a variety of risks and uncertainties may affect AstraZeneca's business. Here AstraZeneca summarises, under the headings Product Pipeline Risks; Commercialisation Risks; Supply Chain and Business Execution Risks; Legal, Regulatory and Compliance Risks; and Economic and Financial Risks, the key risks and uncertainties that it currently considers may have a significant effect on its financial condition, results of operations and/or reputation. Other risks not listed here could have a similar effect.

Product Pipeline Risks

Failure or delay in the delivery of AstraZeneca's pipeline or launch of new medicines

AstraZeneca's continued success depends on the development and successful launch of innovative new drugs. The development of pharmaceutical product candidates is a complex, risky and lengthy process involving significant resources. Projects have failed, and may fail in the future, at any stage of the process due to various factors, including: failure to obtain the required regulatory or marketing approvals, unfavourable clinical efficacy data, safety concerns, failure to demonstrate adequate cost-effective benefits to regulatory authorities and/or payers, and the emergence of competing products.

Failure or delay in development of new product candidates could damage the reputation of AstraZeneca's research and development ("R&D") capabilities, and adversely affect its future business and results of operations.

Launch activities have been delayed, and may be delayed in the future, by a number of factors, including: adverse findings in preclinical or clinical studies, regulatory demands, price negotiation, large-scale natural disasters or global pandemics, competitor activity and technology transfer.

Delays to launches can lead to excess expenses in the manufacture of pre-launch inventories, marketing materials and salesforce training. For the launch of products that are seasonal in nature, delays in regulatory approvals or manufacturing may delay launch to the next season which, in turn, may significantly reduce the return on costs incurred in preparing for the launch for that season. Furthermore, in immuno-oncology in particular, speed to market is critical given the large number of clinical trials being conducted by competitors. Delay of launch can also erode the term of patent exclusivity.

In addition to developing products in-house, AstraZeneca continues to expand its portfolio through licensing arrangements and strategic collaborations which may not ultimately be successful.

Competition from other pharmaceutical companies means that AstraZeneca may have to pay a significant premium over book or market values for AstraZeneca's acquisitions. Failure to complete collaborative projects in a timely, cost-effective manner may limit AstraZeneca's ability to access a greater portfolio of products,

intellectual property ("IP"), technology and shared expertise. In many cases, AstraZeneca makes milestone payments in advance of the commercialisation of its products, with no assurance of recouping costs.

Failure to meet regulatory or ethical requirements for medicine development or approval

AstraZeneca is subject to laws and regulations that control its ability to market its pharmaceutical products. AstraZeneca's development programmes must meet many standards to prove its products are safe, effective and of high quality. Health authorities, such as the Food and Drug Administration (the "FDA") in the United States of America ("US") and the European Medicines Agency in the European Union ("EU"), can refuse to approve AstraZeneca's products or require it to conduct additional clinical trials or scientific testing before they will approve them for marketing. Many factors influence health authority decisions to approve or reject a marketing application for a pharmaceutical product. These include advances in science and technology, new laws, regulations and policies, and different standards for evaluating safety and effectiveness.

Delays in regulatory approvals could delay AstraZeneca's ability to market its products and may adversely affect its revenue. Also, post-approval requirements, including additional clinical trials, could cause increased costs. AstraZeneca seeks to manage these risks, but policymaking by governments and health authorities can be unpredictable and unforeseen circumstances, such as public health emergencies, may strain health authority resources and delay the approval of AstraZeneca's products.

Following approval, a health authority may require AstraZeneca to conduct additional clinical trials or scientific testing to address concerns raised after patients have used its products in the marketplace. New data may impact a product's approval status or lead to labelling changes that limit the use of a product.

Commercialisation Risks

Pricing, affordability, access and competitive pressures

AstraZeneca's approach to pricing balances the priorities of patients, their physicians, payers, society and AstraZeneca's business. The four guiding principles – Access, Value, Sustainability and Equity – aligned to AstraZeneca's overarching company values, form the cornerstones of its brand pricing strategies. Prices are rooted in the assurance of high-quality science, and the benefit this brings to patients. They also reflect holistic value, in the context of healthcare systems and market dynamics, affordability and equity; so that AstraZeneca can adapt prices across the more than 80 countries in which it has an active presence and help support long-term healthcare system resilience.

This pricing approach is a key contributor to AstraZeneca's success. However, there are various external risk factors that could compromise its ability to execute pricing strategies as planned. The market access environment is highly complex and subject to dynamic economic, political and social pressures. Globally, there are increasing cost-containment measures, greater calls for net price and R&D cost transparency, as well as early discussions towards pooled procurement mechanisms beyond emergency countermeasures and essential medicines.

Continued deterioration of, or lack of improvement in, socio-economic conditions could adversely affect supply and/or distribution in affected countries and the ability or willingness of customers to purchase AstraZeneca's medicines, putting pressure on price and/or volumes. This could adversely affect AstraZeneca's business or results of operations. For example, those healthcare systems most severely impacted by downturn may seek alternative ways to settle their debts at a discount. Other customers may cease to trade, which may result in losses from writing off debts or a reduction in demand for products.

Across the industry, AstraZeneca and the wider pharmaceutical industry continue to navigate pricing pressures and policy changes including the EU Joint Clinical Assessment (the "JCA"), the US Inflation Reduction Act (the "IRA") as well as more recent health equalisation initiatives requiring countries to increase their drug spending to support R&D costs, ensuring a more balanced global pharmaceutical landscape.

Failures or delays in the quality or execution of AstraZeneca's commercial strategies

Maximising the commercial potential of AstraZeneca's new products underpins the success of its strategy and the delivery of its short- and medium-term targets. AstraZeneca may ultimately be unable to achieve commercial success for various reasons, including: difficulties in manufacturing sufficient quantities of the product; any price control measures imposed by governments and healthcare authorities; patient access to

healthcare; diagnosis rates; erosion of IP rights; failure to show a differentiated product profile; or changes in prescribing habits.

The ability to successfully carry out business in emerging markets can be more challenging than in established markets. Such challenges may include: volatility in economic or political climates; inadequate protection against crime (including counterfeiting, corruption and fraud); and inadvertent breaches of local and international law.

Failure to execute AstraZeneca's commercial strategies or achieve the level of sales anticipated for a medicine could materially impact AstraZeneca's business or results of operations.

Failure to leverage potential opportunities or appropriately manage risks in emerging markets may materially adversely affect AstraZeneca's reputation, business or results of operations.

Supply Chain and Business Execution Risks

Failure to maintain supply of compliant, quality medicines

AstraZeneca may experience challenges, delays or interruptions in the manufacturing and supply of its products for various reasons, including: supply shortages or delays in construction of facilities to support future demand of its products caused by significant un-forecasted demand growth or supply chain disruptions (e.g. natural disasters, climate impacts, pandemics, conflict or political unrest, failure in IT (including cyber-attack)); and the inability to supply products due to a product quality failure or regulatory compliance action such as licence withdrawal, product recall or change of regulatory standards (e.g. nitrosamines, where regulators have been introducing new limits/expectations for regulatory filings).

Supply chain difficulties may result in product shortages, which could lead to lost product sales and materially affect AstraZeneca's reputation and results of operations.

It is necessary for AstraZeneca to meet all regulations, including compliance with Good Manufacturing Practices and Good Distribution Practices and comparable regulatory dossier conditions of approval in all countries in which AstraZeneca's products are licensed, manufactured or sold.

Failure to comply with all manufacturing regulations can result in negative regulatory inspection findings that could lead to the halt of manufacturing, and/or product seizure, debarment or recalls which could have an adverse effect on AstraZeneca's business, financial condition and results of operations.

AstraZeneca relies significantly on third parties for the timely supply of goods (e.g. active ingredients and packaging components, many of which are difficult to substitute in a timely manner or at all).

Failure in information technology or cybersecurity

IT systems enable critical business functions which are increasingly dependent on solution provider cybersecurity controls and maturity. High availability and resilient IT systems remain a business imperative, providing AstraZeneca's workforce with continuous access to artificial intelligence ("AI") tools, collaboration environments, global communications channels, applications and data. In addition to availability and reliability, these systems must comply with provisions specified in cybersecurity, data security, privacy and individual protection laws.

Disruption to AstraZeneca's IT systems and/or the internet (including breaches of data security or cybersecurity, failure to integrate new and existing IT systems) or failure to comply with additional requirements under applicable laws, could harm AstraZeneca's reputation and materially adversely affect its financial condition or operations. While AstraZeneca invests heavily in the protection of its data, IT, Operational Technology and AI assets it may be unable to prevent hardware or software failures or breaches which could result in disclosure of confidential information, damage to its reputation, regulatory penalties or sanctions, or financial loss.

AstraZeneca prioritises data protection and access to delivery innovation, business growth, and uninterrupted medicine supply. Data is often characterised as strictly confidential including clinical trial records, personal information, IP, R&D data, and compliance information. IT systems and data are potentially vulnerable to service interruptions and security breaches via attacks by malicious third parties or intentional or inadvertent

actions by AstraZeneca's employees or vendors. Attempts to exploit AstraZeneca's IT systems and data are increasingly sophisticated with increased volume, and fuelled by malicious AI use. Threat actors include organised criminal groups, 'hacktivists', nation states, employees and others. Privacy legislation includes obligations to report data protection breaches to regulators and affected individuals within expedited timeframes.

The inability to back-up and restore data effectively could lead to permanent loss of data that could, in turn, result in non-compliance with applicable laws and regulations and otherwise harm AstraZeneca's business. Data loss could lead to public disclosure of confidential information which may damage AstraZeneca's reputation, materially affect its business or results of operations, and expose it to legal risks and/or additional legal obligations. Public disclosure of sensitive information could materially adversely affect AstraZeneca's reputation and business or operations' results.

The internet is AstraZeneca's primary critical business transaction channel. Internet availability remains at risk due to geopolitical tensions and conflict.

Cybersecurity insurance coverage limits may not protect against any future claim or claim proceeds may be delayed.

Failure to comply with regulatory disclosure requirements could cause reputational damage and a loss of public trust.

Failure to collect and manage data and artificial intelligence in line with legal and regulatory requirements and strategic objectives

Data is increasingly recognised as being AstraZeneca's most valuable commodity. There is an increasing range of legislative and regulatory requirements to manage data across all countries where AstraZeneca conducts business. The requirements may impact certain types of data such as personal data, the way that AstraZeneca conducts business, such as restricting the movement of data between countries or jurisdictional regions, or how it makes use of new technological capabilities such as AI. In addition, geopolitical changes may require changes to how AstraZeneca manages data.

Despite AstraZeneca and its third parties taking measures designed to ensure compliance with applicable privacy- and AI-related laws and regulations, non-compliance may occur. If future instances of non-compliance are deemed significant, these may attract material regulatory sanctions or fines and corresponding reputational damage, orders to stop certain processing of personal data, or legal action on behalf of impacted individuals. Further, failure to protect personal data could lead to a competitive disadvantage, loss of trust from stakeholders, including patients, and prevent AstraZeneca from delivering its strategic objectives.

If the scope of data-related laws is expanded or if the interpretation or enforcement of existing laws change or new privacy laws are implemented, AstraZeneca and its third-party vendors may be required to change business practices or data processing practices and policies. This may lead to substantial compliance-related costs or materially adversely impact AstraZeneca's business and financial condition.

Beyond legal and regulatory requirements, achieving strategic objectives will require good management of data across the enterprise. As AstraZeneca increasingly relies on data, including sensitive data relating to health and genomics, a failure to properly understand personal and collective accountabilities for managing data to maximise its value, or failure to address data risks, will reduce AstraZeneca's ability to execute at pace and deliver its strategic objectives.

AI technologies present significant opportunities and risks to AstraZeneca's business. Harnessing AI's transformative potential may enable AstraZeneca to speed up the discovery and development of new drugs, optimise its manufacturing processes, drive efficiencies and productivity, and accelerate its growth. Failure to exploit these opportunities may put AstraZeneca at a competitive disadvantage and impact delivery of its strategic objectives.

AstraZeneca is investing significant resources into AI experimentation, development and deployment across many parts of its business. As AstraZeneca scales its use of AI, it is possible not all investments will succeed. AI technologies may exacerbate existing risks, like those associated with data privacy, cybersecurity and IP. AI also introduces new risks due to the autonomous nature of the technology, the ease at which AI-enabled decision making can be scaled up, and the commercial pressures to adopt AI. AI systems can amplify biased

and discriminatory decision making, perform unreliably and malfunction, generate insights which are difficult to interpret and explain, and cause direct harm to individuals or groups. These risks may become more significant as AstraZeneca increasingly utilises AI to inform, augment and automate decision making and processes in sensitive areas (e.g. clinical trials and medical decision making).

The adoption and exploitation of AI is occurring under the backdrop of intense global media scrutiny, heightened political attention and low levels of public trust and understanding. There is also a range of new AI regulations being adopted and implemented worldwide, including in the EU, China and the US.

AstraZeneca's failure to use AI technologies in a way that maintains trust, quality and control in its business activities would pose reputational, legal, regulatory and financial risks to AstraZeneca. Investments in AI may not realise the benefits that were anticipated.

Illegal trade in AstraZeneca's medicines

The illegal trade of pharmaceutical products, including counterfeiting, tampering, theft and illegal diversion (where products are found in a market where AstraZeneca did not send them and where they are not approved to be sold) may lead to a loss of public confidence in the integrity of medicines.

The incidence of illegal trade could materially adversely affect AstraZeneca's reputation and financial performance, and pose a direct risk to patient safety. In addition, concern about this issue may cause some patients to stop taking their medicines, with consequential risks to their health.

If AstraZeneca is found liable for breaches in its supply chains, authorities may take action, financial or otherwise, that could restrict the distribution of its products.

Reliance on third-party goods and services

A significant proportion of AstraZeneca's annual costs relates to spend with third-party suppliers. The level of spend supports the length of AstraZeneca's value chain from discovery to manufacture and commercialisation of its medicines.

Many of AstraZeneca's business-critical operations are outsourced to third-party providers. AstraZeneca is, therefore, heavily reliant on these third parties to get medicines to patients, comply with applicable laws and regulations, while also ensuring prudent use of AstraZeneca's financial resources.

Failure to successfully secure, onboard and manage outsourced services, particularly with continued inflationary pressures, or the failure of outsourced providers to deliver timely services, and to the required level of quality, could materially adversely affect AstraZeneca's reputation, its financial condition and operating results as well as its ability to deliver medicines to patients.

Failure to effectively manage third-party suppliers when external factors, including geopolitical tensions or raw materials and components shortages, place increased pressure on AstraZeneca's ability to purchase goods and services may lead to major business disruption.

Any breach of security, whether physical, cyber or data related, or failure of these third parties to operate in a way that is consistent with laws or regulations, may lead to regulatory penalties, materially affect the results of operations and adversely impact AstraZeneca's reputation.

Failure of critical processes

Unexpected events including those beyond AstraZeneca's control could result in the failure of critical processes within AstraZeneca or at third parties on whom it is reliant.

Examples of threats include: instability including as a result of war or armed conflicts, terrorism, pandemics, riots, unstable governments, civil insurrection or social unrest; natural disasters and extreme weather events; and cyber threats detailed in the "Failure in information technology or cybersecurity" risk factor above.

Crystallisation of such threats may heighten other risks, such as the delivery of the pipeline, launch of new medicines, or the manufacture and supply of medicines, and may lead to loss of revenue and have an adverse impact on AstraZeneca's operations.

Failure to attract, develop, engage and retain a diverse, talented and capable workforce

AstraZeneca relies heavily on recruiting and retaining talented employees with a diverse range of skills and capabilities to meet its strategic objectives. Externally, there is intense competition for well-qualified individuals, as the supply of people with certain skills or in specific geographic regions may be limited. The inability to attract and retain highly skilled personnel may weaken AstraZeneca's succession plans for critical positions, impact the implementation of AstraZeneca's strategic objectives and have a significant impact on AstraZeneca's business.

Ensuring employees are continually developed so that they can fully exploit the opportunities presented by new technologies will be important for AstraZeneca's ongoing financial performance.

Failure to develop and engage AstraZeneca's workforce could result in business disruption, a loss of productivity and higher turnover rates, all of which could materially adversely affect its business.

Legal, Regulatory and Compliance Risks

Safety and efficacy of marketed medicines is questioned

AstraZeneca's ability to accurately assess, prior to launch, the eventual safety or efficacy of a new product once in broader clinical use can only be based on data available at that time, which is inherently limited due to relatively short periods of product testing and relatively small clinical study patient samples.

Any unforeseen safety concerns or adverse events relating to AstraZeneca's products, or failure to comply with laws, rules and regulations relating to provision of appropriate warnings concerning the dangers and risks of its products that result in injuries, could expose AstraZeneca to large product liability claims, settlements and awards, particularly in the US. Adverse publicity relating to the safety of a product, or of other competing products, may increase the risk of product liability claims.

Serious safety concerns or adverse events relating to AstraZeneca's products could lead to product recalls, seizures, loss of product approvals, declining sales and interruption of supply, and could materially adversely impact patient access, AstraZeneca's reputation and financial revenues. Significant product liability claims could also arise which could be costly, divert management attention, or damage AstraZeneca's reputation and demand for AstraZeneca's products.

Unfavourable resolution of such current and similar future product liability claims could subject AstraZeneca to enhanced damages, consumer fraud and/or other claims, including civil and criminal governmental actions. This could require it to make significant provisions in its accounts relating to legal proceedings and could materially adversely affect AstraZeneca's financial condition or results of operations, particularly where such circumstances are not covered by insurance.

Adverse outcome of litigation and/or governmental investigations

AstraZeneca's business is subject to a wide range of laws and regulations around the world. AstraZeneca has been, and may continue to be, subject to various legal proceedings and governmental investigations.

Actual or perceived failure to comply with laws or regulations may result in AstraZeneca and/or its employees being investigated by government agencies and authorities and/or in civil legal proceedings. Relevant authorities have wide-ranging administrative powers to deal with any failure to comply with laws, regulations or continuing regulatory oversight, and this could affect AstraZeneca, whether such failure is its own or that of its contractors or external partners. In particular, the manufacturing, marketing, exportation, promotional, clinical, pharmacovigilance and pricing practices of pharmaceutical manufacturers, as well as manufacturer interaction with regulatory agencies, purchasers, prescribers and patients, are subject to extensive regulation, litigation and governmental investigation. Moreover, such laws, rules and regulations are subject to change.

Many companies, including AstraZeneca, have been subject to legal claims asserted by federal and state governmental authorities and private payers and consumers, which have resulted in substantial expense and other significant consequences. Governmental investigations or proceedings could result in civil or criminal sanctions and/or the payment of fines or damages. Civil litigation, particularly in the US, is inherently unpredictable, and unexpectedly high awards for damages can result from an adverse result. In many cases, litigation adversaries may claim enhanced damages in extremely high amounts. Government investigations,

litigations, and other legal proceedings, regardless of the outcome, could be costly, divert management attention, or damage AstraZeneca's reputation and demand for its products.

Unfavourable resolutions to current and similar future proceedings against AstraZeneca that could subject it to criminal liability, fines, penalties or other monetary or non-monetary remedies, including enhanced damages, require it to make significant provisions in AstraZeneca's accounts relating to legal proceedings and could materially adversely affect its business or results of operations.

IP risks related to AstraZeneca's products

IP protection provides the foundation for continued investment in developing innovative medicines to improve patient health. However, the pharmaceutical industry is experiencing pressure from governments and other healthcare payers to impose limits on IP protections in an effort to manage healthcare costs. Additionally, policymakers are progressively leveraging regulations to expedite the approval of generic drugs and encourage generic drug utilisation. These policies may drive accelerated utilisation of generic alternatives to AstraZeneca's products following expiry or loss of its IP rights. There is also increasing use of compulsory licensing in some countries in which AstraZeneca operates.

AstraZeneca is subject to numerous patent challenges relating to various products or processes and assertions of non-infringement of its patents. A loss in any of these challenges could result in loss of patent protection on the covered product and a risk to the revenue generated by the product. AstraZeneca also faces the risk that its products may be found to infringe patents owned or licensed by third parties and it may be subject to monetary damages or compelled to cease sales of the infringing product, resulting in a potential risk to revenue. These challenges threaten the value of AstraZeneca's investment in pharmaceutical development.

If AstraZeneca is unable to obtain, defend and enforce its IP, it may experience accelerated and intensified competition. Also, if AstraZeneca's products are found to infringe a third-party patent, it may be subject to monetary damages or compelled to cease sales of the infringing product. These negative outcomes could have an adverse material impact on AstraZeneca's financial results.

Failure to meet sustainability targets, regulatory requirements and stakeholder expectations with respect to the environment

Environmental issues will become more important as healthcare systems continue to adopt net-zero climate targets and environmental considerations are embedded in the public procurement of medicinal products and devices. Investors, governments and non-governmental organisations will increasingly scrutinise AstraZeneca's environmental targets and performance. Investors are increasingly focusing on environmental issues. There is an increased requirement to quantify the impact of specific environmental issues and to disclose strategy, targets and performance.

Specific materials used to manufacture medicines, or used as excipients or propellants, are coming under increased regulation and may be subject to time-limited exemptions or potential phase-out. Failure to maximise AstraZeneca's sustainability credentials could expose AstraZeneca to increased regulatory risk and put it at a commercial disadvantage relative to AstraZeneca's peers. This could adversely impact AstraZeneca's financial results and lead to reputational damage.

The impacts of climate change could impact the resilience of AstraZeneca's business operations and supply chain. Failure to proactively manage these risks could result in supply interruptions, loss of stock and adversely impact AstraZeneca's financial results.

Failure to meet regulatory and ethical expectations on commercial practices, including anti-bribery/anti-corruption, anti-fraud and scientific exchanges

There remains an increased global focus on the implementation and enforcement of anti-bribery/anti-corruption and anti-fraud legislation. Many other countries where AstraZeneca operates are also enforcing their own laws more aggressively and/or adopting tougher new measures. There has also been an increase in cooperation and coordination between regulators across countries with respect to investigation and enforcement. AstraZeneca has been the subject of anti-corruption investigations and there can be no assurance that it will not, from time to time, be subject to informal enquiries and formal investigations from governmental agencies. In the context of AstraZeneca's business, governmental officials interact with AstraZeneca in various roles that are important

to its operations, such as in the capacity of a regulator, partner or healthcare payer, reimbursor or prescriber, among others.

Despite taking measures to prevent breaches of applicable anti-bribery/anti-corruption and anti-fraud laws by AstraZeneca's personnel and associated third parties, breaches may still occur, potentially resulting in the imposition of significant penalties, such as fines, the requirement to comply with monitoring or self-reporting obligations, or debarment or exclusion from government sales or reimbursement programmes, any of which could materially adversely affect AstraZeneca's reputation, business or results of operations.

Economic and Financial Risks

Geopolitical and/or macroeconomic volatility disrupts the operation of AstraZeneca's global business

With an active presence in more than 80 countries, AstraZeneca is subject to political, socio-economic and financial factors around the world. A sustained global economic downturn, periods of high inflation, stagflation or large fluctuation in exchange rates may adversely impact financial markets and/or exacerbate pressure from governments and other healthcare payers on medicine prices and other cost control measures in order to limit healthcare spending.

A severe or prolonged economic downturn could result in a variety of risks to AstraZeneca's business, including weakened demand for medicines and its ability to raise additional capital when needed or on favourable terms, if at all. A weak or declining economy could strain AstraZeneca's suppliers, possibly resulting in supply disruption, or cause delays in payments for AstraZeneca's services by third-party payers. Measures taken to limit healthcare spending may lead to lower than anticipated rates of growth in some markets and limit the incentives to develop innovative medicines, resulting in an adverse impact on revenues and profitability.

Geopolitical tensions may lead to the imposition, alteration or escalation of trade controls, tariffs, taxes or other restrictions to market access which may increase AstraZeneca's costs or reduce revenues.

Any escalation in barriers to the global free flow of medicines could increase costs to serve affected markets which may lead to downward pressure on margins. While the introduction of severe sanctions would be unprecedented in relation to medicines, the landscape continues to evolve. It could occur if matters escalate significantly and could impact processes for the manufacture, distribution and commercialisation of medicines and levels of sales in affected markets.

Any of the foregoing could harm AstraZeneca's business, and it cannot anticipate all of the ways in which the current economic climate and financial market conditions could adversely impact its business.

Failure to achieve strategic plans or meet targets or expectations

When AstraZeneca communicates its business strategy, targets or performance expectations, all such statements are forward-looking and based on assumptions and judgements, all of which are subject to significant inherent risks and uncertainties.

To achieve its strategic objectives, AstraZeneca must continue to develop commercially viable new products and successfully integrate new organisations it has acquired. There can be no guarantee that AstraZeneca's strategy or expectations will materialise. Any failure to successfully implement its business strategy may frustrate the achievement of its financial targets, which may therefore materially damage its brand, business, financial position or results of operations.

Failure in internal control, financial reporting or the occurrence of fraud

Effective internal controls assist in the provision of reliable financial statements and the detection and prevention of fraud. Testing of internal controls provides only limited assurance over the accuracy of financial statements and may not prevent or detect misstatements or fraud.

The introduction of new legislation such as the failure to prevent fraud offence in the UK's Economic Crime and Corporate Transparency Act may increase regulator focus on fraud.

Significant resources may be required to remediate any deficiency in internal controls. Any such deficiency may trigger related investigations and may result in fines being levied against individual directors or officers.

Serious fraud may lead to prosecution of senior management. Any of the foregoing could adversely affect AstraZeneca's financial results and lead to reputational damage.

Unexpected deterioration in AstraZeneca's financial position

Movements in exchange rates against the US dollar, AstraZeneca's reporting currency, impact its reported results. The key currencies of product sales and costs are: US dollar, euro, Chinese renminbi, pound sterling, Japanese yen, and Swedish krona.

Foreign exchange rate movements may materially adversely affect AstraZeneca's financial condition or results of operations.

Most of AstraZeneca's cash is invested in AAA credit-rated institutional money market funds, fixed income securities issued by government, financial and non-financial entities, and collateralised and non-collateralised bank deposits. AstraZeneca's credit exposure is a mix of US, EU and rest of world default risk across these institutions. In a sustained economic downturn, such institutions may cease to trade and there can be no guarantee that AstraZeneca will be able to access the full value of its investments.

AstraZeneca invests in many projects in an effort to develop a successful portfolio of approved products. AstraZeneca's consolidated statement of financial position therefore contains significant investments in intangible assets, including goodwill. AstraZeneca's ability to realise value on these investments depends on regulatory approvals, market acceptance, competition, and legal developments.

AstraZeneca expects that some of its intangible assets will become impaired in the future. Impairment losses may materially adversely affect its financial condition or results of operations.

AstraZeneca's defined benefit post-retirement obligations (primarily in the UK and Sweden) can materially change in value but are largely backed by assets invested in growth and liability hedging portfolios, which hedge some of the risks inherent in liability valuations.

Solvency levels could fall, adversely impacting AstraZeneca's financial position and requiring higher cash contributions if there are: falls in assets; increases in liability valuations (from falls in bond yields, increases in inflation or lower mortality); or changes in regulations. As liability valuation risks are hedged to a material level in some pension schemes, significant collateral may need to be posted to meet margin requirements, which in extreme circumstances, could lead to a short-term liquidity risk in these pension schemes and a request to the Group to provide temporary liquidity.

Although AstraZeneca maintains relevant insurance coverage for risks arising within it, it may not be able to maintain its insurance coverage at a reasonable cost or in sufficient amounts to protect it against losses.

Uninsured losses, or those where an insurer denies coverage, could materially adversely affect AstraZeneca's financial condition.

Tax law is complex, leading to the risk of different interpretations. Revenue authorities can make conflicting claims to the profits taxed in individual countries, leading to double taxation and the potential for fines and penalties. Tax laws can change following action by international bodies such as the Organisation for Economic Co-operation and Development or individual governments.

The resolution of tax disputes can result in incremental tax costs, a reallocation of profits or losses between jurisdictions, or even double taxation, fines and penalties. They are costly, divert management attention and may adversely affect AstraZeneca's reputation. If tax treaties are withdrawn or amended, or competent authorities are unable to reach an agreement that eliminates double taxation, this could materially adversely affect AstraZeneca's financial position.

Changes in tax regimes could result in a material impact on AstraZeneca's cash tax liabilities and tax charge, resulting in either an increase or a reduction in financial results.

RISKS RELATING TO THE NOTES

Notes issued by AstraZeneca PLC will be structurally subordinated to any Notes issued by AstraZeneca Finance and guaranteed by AstraZeneca PLC as to the assets of AstraZeneca Finance.

Notes issued by AstraZeneca PLC will be structurally subordinated to any Notes issued by AstraZeneca Finance and guaranteed by AstraZeneca PLC as to the assets of AstraZeneca Finance. This means that claims of the creditors of AstraZeneca Finance, including the holders of Notes issued by AstraZeneca Finance, will have priority as to the assets of AstraZeneca Finance over AstraZeneca PLC's rights as the sole shareholder of AstraZeneca Finance. Consequently, in the event of AstraZeneca Finance's insolvency, the claims of holders of Notes issued by AstraZeneca PLC will be structurally subordinated to the prior claims of the creditors of AstraZeneca Finance, including the holders of Notes issued by AstraZeneca Finance.

Regulation of benchmarks may lead to future reforms or discontinuation

The Euro Interbank Offered Rate ("**EURIBOR**") and other interest rate or other types of rate and indices which are deemed to be benchmarks have been subject to significant regulatory scrutiny and legislative intervention in recent years. This relates not only to creation and administration of benchmarks, but, also, to the use of a benchmark rate. In the EU, for example Regulation (EU) No. 2016/1011, as amended (the "**EU Benchmarks Regulation**") applies to the provision of, contribution of input data to, and the use of, a benchmark within the EU, subject to certain transitional provisions. Similarly, Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018, as amended (the "**UK Benchmarks Regulation**") applies to the provision of, contribution of input data to, and the use of, a benchmark within the UK, subject to certain transitional provisions.

Legislation such as the EU Benchmarks Regulation or the UK Benchmarks Regulation, if applicable, could have a material impact on any Notes linked to EURIBOR or another benchmark rate or index for example, if the methodology or other terms of the benchmark are changed in the future in order to comply with the terms of the EU Benchmarks Regulation or UK Benchmarks Regulation or other similar legislation, or if a critical benchmark is discontinued or is determined by a regulator to be "no longer representative". Such factors could (amongst other things) have the effect of reducing or increasing the rate or level or may affect the volatility of the published rate or level of the benchmark. They may also have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks", or lead to the discontinuance or unavailability of quotes of certain "benchmarks".

Although EURIBOR has subsequently been reformed in order to comply with the terms of the EU Benchmarks Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with the Euro Short Term Rate ("**€STR**") or an alternative benchmark.

The elimination of the EURIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest calculation provisions of the Conditions (as further described in Condition 7(i) (*Benchmark Discontinuation*)), or result in adverse consequences to holders of any Notes linked to such benchmark (including Floating Rate Notes whose interest rates are linked to EURIBOR or any other such benchmark that is subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities (including the Notes) based on the same benchmark.

Interest Rate "fallback" arrangements may lead to Notes performing differently or the effective application of a "fixed rate"

If a relevant benchmark (including any page on which such benchmark may be published (or any other successor service)) becomes unavailable or a Benchmark Event (as defined in the Conditions), as applicable, occurs, the Conditions of Notes provide for certain fallback arrangements. Such fallback arrangements include the possibility that the rate of interest could be set by reference to a successor rate or an alternative rate and that such successor rate or alternative reference rate may be adjusted (if required) in accordance with the recommendation of a relevant governmental body in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant benchmark, although the application of such adjustments to the Notes may not achieve this objective.

Any such changes may result in the Notes performing differently (which may include payment of a lower interest rate) than if the original benchmark continued to apply. It is also possible that such an event may be deemed to have occurred prior to the issue date for a Series of Notes. Moreover, due to the uncertainty

concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Adviser (as defined in the Conditions) in certain circumstances, the relevant fallback provisions may not operate as intended at the relevant time. Additionally, in certain circumstances, the ultimate fallback of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used, which may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Investors should consult their own independent advisers and make their own assessment about the potential risks arising from the possible cessation or reform of certain reference rates in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Interest rate risks

Investment in fixed rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of fixed rate Notes.

Credit ratings may not reflect all risks and may affect the trading price of the Notes

Tranches of Notes that may be issued under the Programme may be rated or unrated. Where a Tranche of Notes issued under the Programme is rated, the applicable rating(s) will be specified in the relevant Final Terms. Such rating will not necessarily be the same as the rating(s) assigned to the Programme, the relevant Issuer or to Notes already issued. One or more independent credit rating agencies may also assign credit ratings to the Notes.

Such ratings may not reflect the potential impact of all risks discussed above, and other factors that may affect the value of any Tranche of Notes. In addition, any negative change in the credit ratings of an Issuer could adversely affect the trading price of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the relevant rating agency at any time.

The Notes may be redeemed prior to maturity

In the event that an Issuer and/or the Guarantor, as the case may be, would be obliged to increase the amounts payable in respect of any Notes or the Guarantee due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Relevant Jurisdiction(s) (as defined in the Conditions) or any political subdivision thereof or any authority therein or thereof having power to tax, the relevant Issuer may redeem all outstanding Notes in accordance with the Conditions.

In addition, if in the case of any particular Tranche of Notes the relevant Final Terms specify that the Notes are redeemable at the relevant Issuer's option in certain other circumstances such Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, or lodged with a sub-custodian for CMU, investors will have to rely on their procedures for transfers, payments and communications with the relevant Issuer

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depositary or, as the case may be, common safekeeper for Euroclear and Clearstream or lodged with a sub-custodian for CMU. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive Definitive Notes. The relevant clearing system(s) will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through the clearing system(s).

While the Notes are represented by one or more Global Notes the relevant Issuer will discharge its payment obligations under the Notes by making payments to the common depositary or, as the case may be, a common safekeeper for Euroclear and Clearstream or, as the case may be, a sub-custodian for CMU, for distribution to their account holders or in the case of the CMU, to the persons for whose account(s) interests in such Global Notes are credited as being held in the CMU in accordance with the CMU Rules (as defined in the Agency Agreement) as notified by the CMU to the Issuer in a relevant CMU Instrument Position Report (as defined in the Agency Agreement) or any other notification by the CMU. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream or, as the case may be, the CMU to receive payments under the relevant Notes. The relevant Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system(s) to appoint appropriate proxies.

There is no active trading market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the relevant Issuer and/or the Guarantor, as the case may be. Although applications have been made for the Notes issued under the Programme to be admitted to the Official List of the FCA and to trading on the Main Market of the London Stock Exchange, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. In addition, the ability of the Dealers to make a market in the Notes (if applicable) may be impacted by changes in regulatory requirements applicable to the marketing, holding and trading of, and issuing quotations with respect to, the Notes. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

Modification and waivers

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Conditions also provide that the Trustee may, without the consent of Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such.

Notes with integral multiples

In relation to any issue of Notes which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of the Specified Denomination that are not integral multiples of the Specified Denomination. Noteholders who, as a result of trading such amounts, hold a principal amount of Notes other than a multiple of the minimum Specified Denomination will receive definitive Notes in respect of their holding (**provided that** the aggregate amount of Notes they hold is in excess of the minimum Specified Denomination), however, any such definitive Notes which are printed in denominations other than the minimum Specified Denomination may be illiquid and difficult to trade. Furthermore, a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If an investor holds Notes which are not denominated in the investor's home currency, he will be exposed to movements in exchange rates adversely affecting the value of his holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The relevant Issuer, or, as the case may be, the Guarantor will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the relevant Issuer, or, as the case may be, the Guarantor to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Notes denominated in Renminbi are subject to additional risks

Set out below is a description of the principal risks which may be relevant to an investor in Notes denominated in Renminbi ("**Renminbi Notes**"):

Renminbi is not freely convertible and there are significant restrictions on the remittance of Renminbi into and out of the PRC which may adversely affect the liquidity of Renminbi Notes

Renminbi is not freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar.

However, there has been significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi into and out of the PRC for the settlement of capital account items, such as capital contributions, debt financing and securities investment, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities and/or designated foreign exchange banks on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into and out of the PRC for settlement of capital account items are being developed.

Although Renminbi was added to the Special Drawing Rights basket created by the International Monetary Fund in 2016 and policies further improving accessibility to Renminbi to settle cross-border transactions in foreign currencies were implemented by the People's Bank of China ("**PBoC**") in 2018, there is no assurance that the PRC Government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that the schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. Despite the Renminbi internationalisation pilot programme and efforts in recent years to internationalise the currency, there can be no assurance that the PRC Government will not impose interim or long-term restrictions on the cross-border remittance of Renminbi. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the relevant Issuer and/or, as the case may be, the Guarantor to source Renminbi to finance its obligations under Notes denominated in Renminbi.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the Renminbi Notes and the relevant Issuer and/or, as the case may be, the Guarantor's ability to source Renminbi outside the PRC to service Renminbi Notes

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. The PBoC has entered into agreements (the "**Settlement Arrangements**") on the clearing of Renminbi business with financial institutions (the "**Renminbi Clearing Banks**") in a number of financial centres and cities, including but not limited to Hong Kong, has established the Cross-Border Inter-Bank Payments System (CIPS) to facilitate cross-border Renminbi settlement, and is in the process of establishing Renminbi clearing and settlement mechanisms in several other jurisdictions. Nevertheless, the current size of Renminbi denominated financial assets outside the PRC is limited.

There are restrictions imposed by PBoC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from PBoC, although PBoC has gradually allowed participating banks to access the PRC's onshore inter-bank market for trading of Renminbi. The Renminbi Clearing Banks only have limited access to onshore liquidity support from PBoC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In cases where the participating banks cannot source sufficient Renminbi through the above channels, they will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the Renminbi Notes. To the extent the relevant Issuer, or, as the case may be, the Guarantor is required to source Renminbi in the offshore market to service its Renminbi Notes, there is no assurance that the relevant Issuer, or, as the case may be, the Guarantor will be able to source such Renminbi on satisfactory terms, if at all.

Payments with respect to the Renminbi Notes may be made only in the manner designated in the Renminbi Notes

All payments to investors in respect of the Renminbi Notes will be made solely (i) for so long as the Renminbi Notes are represented by global certificates held with the common depositary or common safekeeper, as the case may be, for Clearstream and Euroclear or any alternative clearing system, by transfer to a Renminbi bank account maintained in Hong Kong or a financial centre in which a Renminbi Clearing Bank clears and settles Renminbi, (ii) for so long as the Renminbi Notes are represented by global certificates lodged with a sub-custodian for or registered with the CMU, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing CMU rules and procedures, or (iii) for so long as the Renminbi Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong or a financial centre in which a Renminbi Clearing Bank clears and settles Renminbi in accordance with prevailing rules and regulations. The relevant Issuer, or, as the case may be, the Guarantor cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

Gains on the transfer of the Renminbi Notes may become subject to income taxes under PRC tax laws

Under the PRC Enterprise Income Tax Law, the PRC Individual Income Tax Law and the relevant implementing rules, as amended from time to time, any gain realised on the transfer of Renminbi Notes by non-PRC resident enterprise or individual Noteholders may be subject to PRC enterprise income tax ("EIT") or PRC individual income tax ("IIT") if such gain is regarded as income derived from sources within the PRC. The PRC Enterprise Income Tax Law levies EIT at the rate of 20 per cent. of the gains derived by such non-PRC resident enterprise Noteholder from the transfer of Renminbi Notes but its implementation rules have reduced the enterprise income tax rate to 10 per cent. The PRC Individual Income Tax Law levies IIT at a rate of 20 per cent. of the gains derived by non-PRC resident individual Noteholders from the transfer of Renminbi Notes.

However, uncertainty remains as to whether the gain realised from the transfer of Renminbi Notes by non-PRC resident enterprise or individual Noteholders would be treated as income derived from sources within the PRC and become subject to the EIT or IIT. This will depend on how the PRC tax authorities interpret, apply or enforce the PRC Enterprise Income Tax Law, the PRC Individual Income Tax Law and the relevant implementing rules. According to the arrangement between the PRC and Hong Kong, for avoidance of double taxation, Noteholders who are residents of Hong Kong, including enterprise Noteholders and individual Noteholders, will not be subject to EIT or IIT on capital gains derived from a sale or exchange of the Notes.

Therefore, if non-PRC resident enterprise or individual Noteholders are required to pay PRC income tax on gains derived from the transfer of Renminbi Notes, unless there is an applicable tax treaty between PRC and the jurisdiction in which such non-PRC resident enterprise or individual holders of Renminbi Notes reside that reduces or exempts the relevant EIT or IIT, the value of their investment in Renminbi Notes may be materially and adversely affected.

Investment in the Renminbi Notes is subject to currency risk

If the relevant Issuer, or, as the case may be, the Guarantor is not able, or it is impracticable for it, to satisfy its obligation to pay interest and principal on the Renminbi Notes as a result of Inconvertibility, Non-transferability or Illiquidity (each, as defined in the Conditions), the relevant Issuer, or, as the case may be, the Guarantor shall be entitled, on giving not less than 10 Hong Kong Banking Days' nor more than 30 calendar days' irrevocable notice to the investors prior to the due date for payment, to settle any such payment in U.S. Dollars on the due date at the U.S. Dollar Equivalent (as defined in the Conditions) of any such interest or principal, as the case may be.

Investment in the Renminbi Notes is subject to exchange rate risks

The value of Renminbi against other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions as well as many other factors. Recently, the PBoC implemented changes to the way the Renminbi's daily mid-point against the U.S. dollar is determined, by requesting market-makers to submit daily mid-point quotations by reference to the closing rate on the inter-banks market of the previous day. This change, and others that may be implemented, may increase the volatility in the value of the Renminbi against foreign currencies. All payments of interest and principal will be made in Renminbi with respect to Renminbi Notes unless otherwise specified. As a result, the value of these Renminbi payments may vary with the changes in the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against another foreign currency, the value of the investment made by a holder of the Renminbi Notes in that foreign currency will decline.

Investment in the Renminbi Notes is subject to interest rate risks

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

As Renminbi Notes may carry a fixed interest rate, the trading price of the Renminbi Notes will consequently vary with the fluctuations in the Renminbi interest rates. If holders of the Renminbi Notes propose to sell their Renminbi Notes before their maturity, they may receive an offer lower than the amount they have invested.

FINAL TERMS AND DRAWDOWN PROSPECTUSES

In this section the expression "**necessary information**" means, in relation to any Tranche of Notes, the necessary information which is material to an investor for making an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuers and the Guarantor, of the rights attaching to the Notes and the Guarantee and the reasons for the issuance and its impact on the relevant Issuer. In relation to the different types of Notes which may be issued under the Programme the relevant Issuer and the Guarantor, as applicable, have included in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will be contained either in the relevant Final Terms or in a Drawdown Prospectus. Such information will be contained in the relevant Final Terms unless any of such information constitutes a significant new factor, material mistake or material inaccuracy relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, may be contained in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions as completed to the extent described in the relevant Final Terms.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

The Issuers and the Guarantor will, in the event of any significant new factor, material mistake or material inaccuracy relating to information included in this Base Prospectus which may affect the assessment of any Notes, prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Notes.

FORMS OF NOTES

Bearer Notes

Each Tranche of Notes in bearer form ("**Bearer Notes**") will initially be in the form of either a temporary global note in bearer form (the "**Temporary Global Note**"), without interest coupons, or a permanent global note in bearer form (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("**NGN**") form, as specified in the relevant Final Terms, will, on or around the issue date of the relevant Tranche of the Notes, be deposited with a depositary or a common depositary for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream**") or lodged with a sub-custodian for the Central Moneymarkets Unit Service operated by the Hong Kong Monetary Authority ("**CMU**", and together with Euroclear and Clearstream, the "**Clearing Systems**") and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will, on or around the issue date of the relevant Tranche of the Notes, be deposited with a common safekeeper for Euroclear and/or Clearstream.

On 13 June 2006, the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the euro (the "**Eurosystem**"), **provided that** certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

In the case of each Tranche of Bearer Notes, the relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

AstraZeneca Finance will not issue any Bearer Notes.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, from the 40th day after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer and/or the Guarantor, as the case may be shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent; and
- (ii) receipt by the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent of a certificate or certificates of non-U.S. beneficial ownership,

within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; **provided, however, that** in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Bearer Notes in definitive form ("**Definitive Notes**"):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear, Clearstream or CMU or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default as defined in Condition 13 (*Events of Default*) occurs and the Notes become due and payable.

For the avoidance of doubt, Notes will only be issued with a minimum Specified Denomination and in integral multiples of another smaller amount in excess thereof if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note" in accordance with paragraph (iii) above.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer and/or the Guarantor, as the case may be shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent within 30 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes from the 40th day after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes from the 40th day after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer and/or the Guarantor, as the case may be shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent within 30 days of the bearer requesting such exchange.

For the avoidance of doubt, if Notes are to be issued with a minimum Specified Denomination and in integral multiples of another smaller amount in excess thereof as specified in the relevant Final Terms, the Notes cannot be represented on issue by a Temporary Global Note exchangeable for Definitive Notes.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or

- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note", then if (a) Euroclear, Clearstream or CMU or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or does in fact do so and no other clearing system acceptable to the Trustee is then in existence or (b) an Event of Default as defined in Condition 13 (*Events of Default*) occurs and the Notes become due and payable.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer and/or the Guarantor, as the case may be shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent within 30 days of the bearer requesting such exchange.

For the avoidance of doubt, Notes will only be issued with a minimum Specified Denomination and in integral multiples of another smaller amount in excess thereof if the relevant Final Terms specifies "in the limited circumstances described in the Permanent Global Note".

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "*Terms and Conditions of the Notes*" below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

Legend concerning United States persons

In the case of any Tranche of Bearer Notes having a maturity of more than 365 days, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear the following legend:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

Registered Notes

Each Tranche of Notes in registered form ("**Registered Notes**"), will be represented by either individual note certificates in registered form ("**Individual Note Certificates**") or a global note in registered form (a "**Global Registered Note**"), in each case as specified in the relevant Final Terms.

In a press release dated 22 October 2008, "*Evolution of the custody arrangement for international debt securities and their eligibility in Eurosystem credit operations*", the ECB announced that it has assessed the new holding structure and custody arrangements for registered notes which by Euroclear and Clearstream had designed in cooperation with market participants and that Notes to be held under the new structure (the "**New Safekeeping Structure**" or "**NSS**") would be in compliance with the "*Standards for the use of EU securities settlement systems in ESCB credit operations*" of the central banking system for the euro (the "**Eurosystem**"), subject to the conclusion of the necessary legal and contractual arrangements. The press release also stated that the new arrangements for Notes to be held in NSS form will be offered by Euroclear and Clearstream as of 30 June 2010 and that registered debt securities in global registered form issued through Euroclear and Clearstream after 30 September 2010 will only be eligible as collateral in Eurosystem operations if the New Safekeeping Structure is used.

Each Global Registered Note will either be: (a) in the case of a Note which is not to be held under the New Safekeeping Structure, registered in the name of a common depositary (or its nominee) for Euroclear and/or Clearstream and/or the Hong Kong Monetary Authority in its capacity as operator of the CMU and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common depositary or a sub-custodian for the CMU and will be exchangeable in accordance with its

terms; or (b) in the case of a Note to be held under the New Safekeeping Structure, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream and/or any other relevant clearing system and the relevant Global Registered Note will be deposited on or about the issue date with the common safekeeper for Euroclear and/or Clearstream and will be exchangeable for Individual Note Certificates in accordance with its terms.

If the relevant Final Terms specifies the form of Notes as being "Individual Note Certificates", then the Notes will at all times be represented by Individual Note Certificates issued to each Noteholder in respect of their respective holdings.

Global Registered Note exchangeable for Individual Note Certificates

If the relevant Final Terms specifies the form of Notes as being "Global Registered Note exchangeable for Individual Note Certificates", then the Notes will initially be in the form of a Global Registered Note which will be exchangeable in whole, but not in part, for Individual Note Certificates:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies "in the limited circumstances described in the Global Registered Note", then if (a) Euroclear, Clearstream or CMU or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or does in fact do so and no other clearing system acceptable to the Trustee is then in existence or (b) an Event of Default as defined in Condition 13 (*Events of Default*) occurs and the Notes become due and payable.

Whenever a Global Registered Note is to be exchanged for Individual Note Certificates, each person having an interest in a Global Registered Note must provide the Registrar or, as the case may be, the CMU Registrar (through the relevant clearing system) with such information as the relevant Issuer and the Registrar may require to complete and deliver Individual Note Certificates (including the name and address of each person in which the Notes represented by the Individual Note Certificates are to be registered and the principal amount of each such person's holding).

Whenever a Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within five business days of the delivery, by or on behalf of the registered holder of the Global Registered Note to the Registrar or, as the case may be, the CMU Registrar of such information as is required to complete and deliver such Individual Note Certificates against the surrender of the Global Registered Note at the specified office of the Registrar or, as the case may be, the CMU Registrar.

Such exchange will be effected in accordance with the provisions of the Trust Deed and the Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled to the Agency Agreement and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar or, as the case may be, the CMU Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Individual Note Certificate will be endorsed on that Individual Note Certificate and will consist of the terms and conditions set out under "*Terms and Conditions of the Notes*" below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Global Registered Note will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "*Summary of Provisions Relating to the Notes while in Global Form*" below.

CMU

The CMU is a central depositary service provided by the Central Moneymarkets Unit Service of the Hong Kong Monetary Authority for the safe custody and electronic trading between the members of this service

("CMU Members") of capital markets instruments ("CMU Notes") which are specified in the CMU Reference Manual as capable of being held within the CMU.

The CMU is only available to CMU Notes issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. - (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

(d) ***ISDA Determination:*** If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "ISDA Rate" in relation to any Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (f) ***Calculation of Interest Amount:***

The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a **"sub-unit"** means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(i) ***Benchmark Discontinuation:***

- (i) If the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Event occurs in relation to the Reference Rate when the Rate of Interest (or any component part thereof) for any Interest Period remains to be determined by reference to such Reference Rate, then the Issuer shall notify the Calculation Agent and shall use its reasonable endeavours to select and appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 7(i)(ii)) and, in either case, an Adjustment Spread, if any (in accordance with Condition 7(i)(iii)) and any Benchmark Amendments (in accordance with Condition 7(i)(iv)).

In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Guarantor (where applicable), the Trustee, the Paying Agents or the Noteholders for any determination made by it pursuant to this Condition 7(i).

If (i) the Issuer is unable to select and appoint an Independent Adviser or (ii) the Independent Adviser selected and appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7(i) prior to the date which is ten Business Days prior to the relevant Interest Determination Date, the Reference Rate applicable to the immediate following Interest Period shall be the Reference Rate applicable as at the last preceding Interest Determination Date. If there has not been a first Interest Payment Date, the Reference Rate shall be the Reference Rate applicable to the first Floating Rate Interest Period. For the avoidance of doubt, any adjustment pursuant to this final paragraph of Condition 7(i) shall apply to the immediately following Interest Period only. Any subsequent Interest Period may be subject to the subsequent operation of this Condition 7(i).

- (ii) If the Independent Adviser determines and notifies the Calculation Agent prior to the date which is ten Business Days prior to the next Interest Determination Date in its discretion that:
- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7(i)(iii)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(i); or
 - (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7(i)(iii)) subsequently be used in place of the Reference Rate to determine the Rate of Interest for the immediately following Interest Period and all following Interest Periods, subject to the subsequent operation of this Condition 7(i).
- (iii) If the Independent Adviser determines and notifies the Calculation Agent prior to the date which is ten business days prior to the next Interest Determination Date in its discretion (A) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula

or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).

- (iv) If any relevant Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 7(i) and the Independent Adviser determines in its discretion (A) that amendments to these Conditions, the Trust Deed or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 7(i)(vi), without any requirement for the consent or approval of relevant Noteholders or Couponholders, vary or amend these Conditions, the Trust Deed and the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.
- (v) The Trustee shall, at the request and expense of the Issuer and without the requirement for any consent or approval of the Noteholders or Couponholders, concur with the Issuer in effecting any Benchmark Amendments as may be required in order to give effect to this Condition 7(i) (which, for the avoidance of doubt, shall not be treated as being within the scope of the Reserved Matters (as defined in the Trust Deed)), subject to receipt by the Trustee of the certificate referred to in Condition 7(i)(vii) below, **provided however, that** neither the Trustee nor the Agents shall be obliged so to concur if in the reasonable opinion of the Trustee or the Agents, doing so would have the effect of (i) exposing the Trustee or the Agents (as applicable) to any liabilities against which it has not been indemnified and/or prefunded and/or secured to their satisfaction or (ii) imposing more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions in these Conditions, the Agency Agreement or the Trust Deed (including, for the avoidance of doubt, any documents supplemental thereto) afforded to the Trustee or the Agents (as applicable). For the avoidance of doubt, none of the Trustee, the Paying Agents or the Calculation Agent will be responsible for determining whether or not a Benchmark Event has occurred.
- (vi) Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, as determined under this Condition 7(i) will be notified promptly by the Issuer to the Trustee, the Paying Agents, the Calculation Agent and, in accordance with Condition 20 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date, which shall be not less than ten Business Days prior to the next Interest Determination Date, of the Benchmark Amendments, if any.
- (vii) No later than notifying the Trustee and the Agents of the same, which shall be not less than ten Business Days prior to the next Interest Determination Date, the Issuer shall deliver to the Trustee and the Agents a certificate signed by an authorised signatory of the Issuer:
 - (A) confirming (x) that a Benchmark Event has occurred, (y) the relevant Successor Rate, or, as the case may be, the relevant Alternative Rate and, (z) where applicable, any relevant Adjustment Spread and/or the specific terms of any relevant Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 7(i); and
 - (B) certifying that the relevant Benchmark Amendments are necessary to ensure the proper operation of such relevant Successor Rate, Alternative Rate and/or Adjustment Spread.

The Trustee and the Agents shall be entitled to rely on such certificate (without further enquiry and without liability to any person) as sufficient evidence thereof.

- (viii) The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) determined in accordance with this Condition 7(i)

will (in the absence of manifest error, bad faith or fraud in the determination of the Successor Rate or Alternative Rate, and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Trustee's or the Agents ability to rely on such certificate as aforesaid), be binding on the Issuer, the Noteholders, the Trustee, the Paying Agents and the Calculation Agent.

- (ix) Without prejudice to the obligations of the Issuer under Conditions 7(i)(i), 7(i)(ii), 7(i)(iii) and 7(i)(iv), the Reference Rate and the fallback provisions provided for in Condition 7(c) (*Screen Rate Determination*) will continue to apply unless and until a Benchmark Event has occurred and only then once the Agents and the Trustee have been notified of the Successor Rate or the Alternative Rate (as the case may be) and any Adjustment spread (if applicable) and Benchmark Amendments (if applicable) in accordance with paragraph (vi) above.

- (x) As used in this Condition 7(i):

"Adjustment Spread" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser determines is required to be applied to the relevant Successor Rate or the relevant Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (B) (if no such recommendation has been made, or in the case of an Alternative Rate) the Independent Adviser determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or
- (C) (if the Independent Adviser determines that no such industry standard is recognised or acknowledged) the Independent Adviser determines to be appropriate.

"Alternative Rate" means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with Condition 7(i)(ii) is customary in market usage in the international debt capital markets for the purposes of determining floating rates of interest (or the relevant component part thereof) in the Specified Currency.

"Benchmark Amendments" has the meaning given to it in Condition 7(i)(iv).

"Benchmark Event" means:

- (A) the Reference Rate ceasing to be published for a period of at least five (5) Business Days or ceasing to exist; or
- (B) a public statement by the administrator of the Reference Rate that it will cease publishing the Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Reference Rate); or
- (C) a public statement by the supervisor of the administrator of the Reference Rate, that the Reference Rate has been or will permanently or indefinitely discontinued; or

- (D) a public statement by the supervisor of the administrator of the Reference Rate as a consequence of which the Reference Rate will be prohibited from being used either generally, or in respect of the relevant Floating Rate Notes; or
- (E) there has taken place (or will otherwise take place, prior to the next following Interest Determination Date) a change in customary market practice in the international debt capital markets applicable generally to floating rate notes denominated in the Specified Currency (determined according to factors including, but not limited to, public statements, opinions and publications of industry bodies and organisations) to refer to a base rate other than the Reference Rate specified in the applicable Final Terms despite the continued existence of such Reference Rate, when any Rate of Interest (or any component part thereof) remains to be determined by reference to the Reference Rate; or
- (F) it has become unlawful for the Calculation Agent, the Issuer or any other party to calculate any Rate of Interest using the Reference Rate;

"Independent Adviser" means an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets, in each case selected and appointed by the Issuer at its own expense under Condition 7(i)(i).

"Relevant Nominating Body" means, in respect of a benchmark or screen rate (as applicable):

- (A) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board or any part thereof.

"Successor Rate" means a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

(j) ***Notifications etc.:***

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 7 by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer and the Guarantor, as the case may be, the Trustee, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person(s) will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

(k) ***Calculation Agent***

Notwithstanding any other provision of this Condition 7, if in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 7, the Calculation Agent shall promptly notify the Issuer and the Guarantor, as the case may be, and the Independent Adviser thereof and the Issuer and the Independent Adviser shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided

with such direction, or is otherwise unable to make such calculation or determination for any reason, it shall notify the Issuer and the Guarantor, as the case may be, and the Independent Adviser thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and shall not incur any liability for not doing so.

8. **Zero Coupon Note Provisions**

(a) ***Application:***

This Condition 8 is applicable to the Notes only if the Zero Coupon Note provisions are specified in the relevant Final Terms as being applicable.

(b) ***Late payment on Zero Coupon Notes:***

If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent, or, as the case may be, the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

9. **Redemption and Purchase**

(a) ***Scheduled redemption:***

Unless previously redeemed, or purchased and cancelled in accordance with Condition 9(j) (*Cancellation*), the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 10 (*Payments – Bearer Notes*) and Condition 11 (*Payments – Registered Notes*).

(b) ***Redemption for tax reasons:***

The Notes may be redeemed at the option of the Issuer in whole, but not in part:

- (i) at any time (if the Floating Rate Note provisions are not specified in the relevant Final Terms as being applicable); or
- (ii) on any Interest Payment Date (if the Floating Rate Note provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 10 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), together with interest accrued (if any) to the date fixed for redemption, if:

- (A) the Issuer or (in respect of payments under the Guarantee of the Notes for Guaranteed Notes) the Guarantor, as the case may be, has or will or, in the case of payments under the Guarantee, if a demand was made under the Guarantee, would become obliged to pay additional amounts as provided or referred to in Condition 12 (*Taxation*) as a result of any change in, or amendment to, the tax laws or regulations of the Relevant Jurisdiction(s) or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction),

which change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes; and

- (B) such obligation cannot be avoided by the Issuer or the Guarantor, as applicable taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

- (1) where the Notes may be redeemed at any time, 90 days prior to the earliest date on which the Issuer or the Guarantor, as the case may be, would be obliged to pay such additional amounts if a payment in respect of the Notes were then due; or
- (2) where the Notes may be redeemed only on an Interest Payment Date, 60 days prior to the Interest Payment Date occurring immediately before the earliest date on which the Issuer or the Guarantor, as the case may be, would be obliged to pay such additional amounts if a payment in respect of the Notes were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee (A) a certificate signed by an authorised officer of the Issuer, stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and (B) an opinion of independent legal advisers of recognised standing to the effect that the Issuer or the Guarantor, as the case may be, has or will or, in the case of payments under the Guarantee, if a demand was made under the Guarantee, would become obliged to pay such additional amounts as a result of such change or amendment. Upon the expiry of any such notice as is referred to in this Condition 9(b), the Issuer shall be bound to redeem the Notes in accordance with this Condition 9(b).

(c) ***Redemption at the option of the Issuer:***

- (i) If Call Option is specified in the relevant Final Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 10 nor more than 60 days' notice to the Noteholders and the Trustee (which notice shall be irrevocable (other than in the circumstances set out below) and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date).

Any such notice of redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, in which case such notice shall state that, in the Issuer's discretion, the Optional Redemption Date (Call) may be delayed until such time as any or all such conditions shall be satisfied (or waived by the Issuer in its sole discretion), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied (or waived by the Issuer in its sole discretion) by the Optional Redemption Date (Call), or by the Optional Redemption Date (Call) so delayed.

Any notice of redemption given under Condition 9(f) (*Redemption at the option of Noteholders*) will override any notice of redemption given (whether previously, on the same date or subsequently) under this Condition 9(c).

- (ii) If the Optional Redemption Amount specified in the relevant Final Terms is the "**Make-Whole Redemption Amount**", the amount payable on the relevant Optional Redemption Date will be the higher of:

- (A) the principal amount of the Notes; and

- (B) the price, expressed as a percentage of the principal amount of the Notes (rounded to four decimal places with 0.00005 being rounded upwards), at which the then current yield on the Notes on the Reference Date would be equal to the current yield (determined by reference to the middle market price) at the Reference Time on the Reference Date of the relevant Benchmark Security plus the Make-Whole Margin, as determined by the Determination Agent,

provided however that, if the Optional Redemption Date occurs on or after the Par Redemption Date the amount payable on such Optional Redemption Date will be the principal amount of the Notes.

The "**Benchmark Security**", the "**Reference Time**" and the "**Make-Whole Margin**" will be specified in the relevant Final Terms, **provided however that**, if "Linear Interpolation" is specified as applicable in the relevant Final Terms, the current yield of the Benchmark Security shall be determined by linear interpolation (calculated to the nearest one twelfth of a year) of the yield of the two Benchmark Securities specified in the Final Terms.

The "**Reference Date**" means the date which is the third London Business Day prior to the date fixed for redemption.

The "**Determination Agent**" means the agent specified as such in the relevant Final Terms.

(d) ***Partial redemption:***

If the Notes are to be redeemed in part only on any date in accordance with Condition 9(c) (*Redemption at the option of the Issuer*), in the case of Bearer Notes, the Notes to be redeemed shall be selected by the drawing of lots in such place as the Trustee approves and in such manner as the Trustee considers appropriate, subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the notice to Noteholders referred to in Condition 9(c) (*Redemption at the option of the Issuer*) shall specify the serial numbers of the Notes so to be redeemed and, in the case of Registered Notes, each Note shall be redeemed in part in the proportion which the aggregate principal amount of the outstanding Notes to be redeemed on the relevant Optional Redemption Date (Call) bears to the aggregate principal amount of outstanding Notes on such date. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.

(e) ***Clean-up Call Option:***

If Clean-Up Call is specified in the applicable Final Terms and 75 per cent. or more in nominal amount of the Notes originally issued (which shall for this purpose include any further Notes issued and which are consolidated and forming a single Series with one or more previous Tranche(s) of Notes) have been redeemed or purchased and cancelled, the Issuer may, having given: (i) not less than 10 nor more than 60 days' notice to the Noteholders in accordance with Condition 20 (*Notices*); and (ii) not less than 10 days (or such shorter notice as such party shall accept) before the giving of the notice referred to in (i), notice to the Trustee, (which notice shall be irrevocable (other than in the circumstances set out below) and shall specify the date fixed for redemption) redeem or, at the Issuer's option, purchase (or procure the purchase of) on any Interest Payment Date (if the relevant Note is a Floating Rate Note) or at any time (if the relevant Note is not a Floating Rate Note), all but not some only of the Notes then outstanding at the Clean-Up Redemption Amount specified in the applicable Final Terms together with interest accrued (if any) to (but excluding) the date fixed for redemption, **provided that** the Notes in that Series that are no longer outstanding have not been redeemed by the Issuer pursuant to Condition 9(c)(ii).

Any such notice of redemption may, at the Issuer's discretion, be subject to one or more conditions precedent, in which case such notice shall state that, in the Issuer's discretion, the Optional Redemption Date (Call) may be delayed until such time as any or all such conditions shall be satisfied (or waived by the Issuer in its sole discretion), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied (or waived by the Issuer in its sole discretion) by the Optional Redemption Date (Call), or by the Optional Redemption Date (Call) so delayed.

Any notice of redemption given under Condition 9(f) (*Redemption at the option of Noteholders*) will override any notice of redemption given (whether previously, on the same date or subsequently) under this Condition 9(c).

(f) ***Redemption at the option of Noteholders:***

If Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of the Holder of any Note redeem such Note on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. In order to exercise the option contained in this Condition 9(f), the Holder of a Note must, not less than 15 nor more than 60 days before the relevant Optional Redemption Date (Put), deposit with any Paying Agent such Note together with all unmatured Coupons relating thereto and a duly completed Put Option Notice in the form obtainable from any Paying Agent. The Paying Agent with which such Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Noteholder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 9(f), may be withdrawn; **provided, however, that** if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by a Paying Agent in accordance with this Condition 9(f), the depositor of such Note and not such Paying Agent shall be deemed to be the Holder of such Note for all purposes.

(g) ***No other redemption:***

The Issuer shall not be entitled to redeem the Notes otherwise than as provided in Conditions 9(a) (*Scheduled redemption*) to 9(f) (*Redemption at the option of Noteholders*).

(h) ***Early redemption of Zero Coupon Notes:***

Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 9(h) or, if none is so specified, a Day Count Fraction of 30E/360.

(i) **Purchase:**

AstraZeneca PLC and AstraZeneca Finance or any of their Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price and such Notes may be held, resold or, at the option of the Issuer, cancelled, **provided that** if the Notes are to be cancelled, they are purchased together with all unmatured Coupons relating to them.

(j) **Cancellation:**

All Notes redeemed and any unmatured Coupons attached to or surrendered with them shall be cancelled and all Notes so cancelled and any Notes cancelled pursuant to Condition 9(i) (*Purchase*) above (together with, in respect of Bearer Notes, all unmatured Coupons cancelled with them) may not be reissued or resold. Any Notes purchased by the Issuer or any of its Subsidiaries may be cancelled, reissued or resold.

10. **Payments – Bearer Notes**

This Condition 10 is only applicable to Bearer Notes.

(a) **Principal:**

Payments of principal shall be made only against presentation and (**provided that** payment is made in full) surrender of Bearer Notes at the Specified Office of any Paying Agent outside the United States by cheque drawn in the currency in which the payment is due on, or by transfer to an account denominated in that currency (or, if that currency is euro, any other account to which euro may be credited or transferred) and maintained by the payee with, a bank in the Principal Financial Centre of that currency (in the case of a sterling cheque, a town clearing branch of a bank in the City of London).

(b) **Interest:**

Payments of interest shall, subject to Condition 10(h) (*Payments other than in respect of matured Coupons*) below, be made only against presentation and (**provided that** payment is made in full) surrender of the appropriate Coupons at the Specified Office of any Paying Agent outside the United States in the manner described in Condition 10(a) (*Principal*) above.

(c) **Payments in New York City:**

Payments of principal or interest may be made at the Specified Office of a Paying Agent in New York City if (i) the Issuer has appointed Paying Agents outside the United States with the reasonable expectation that such Paying Agents will be able to make payment of the full amount of the interest on the Notes in the currency in which the payment is due when due, (ii) payment of the full amount of such interest at the offices of all such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (iii) payment is permitted by applicable United States law.

(d) **Payments subject to fiscal laws:**

All payments in respect of the Bearer Notes are subject in all cases to any applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 12 (*Taxation*). No commissions or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.

(e) **Deductions for unmatured Coupons:**

If the relevant Final Terms specifies that the Fixed Rate Note provisions are applicable and a Bearer Note is presented without all unmatured Coupons relating thereto:

- (i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; **provided, however, that** if the gross amount available for payment is less than the amount of

principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;

- (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the "**Relevant Coupons**") being equal to the amount of principal due for payment; **provided, however, that** where this subparagraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; **provided, however, that**, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 10(a) (*Principal*) above against presentation and (**provided that** payment is made in full) surrender of the relevant missing Coupons.

(f) ***Unmatured Coupons void:***

If the relevant Final Terms specifies that this Condition 10(f) is applicable or that the Floating Rate Note provisions are applicable, on the due date for final redemption of any Note or early redemption in whole of such Note pursuant to Condition 9(b) (*Redemption and Purchase – Redemption for tax reasons*), Condition 9(f) (*Redemption and Purchase – Redemption at the option of Noteholders*), Condition 9(c) (*Redemption and Purchase – Redemption at the option of the Issuer*), Condition 9(e) (*Redemption and Purchase – Clean-up Call Option*) or Condition 13 (*Events of Default*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.

(g) ***Payments on business days:***

If the due date for payment of any amount in respect of any Bearer Note or Coupon is not a Payment Business Day in the place of presentation, the Holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

(h) ***Payments other than in respect of matured Coupons:***

Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Bearer Notes at the Specified Office of any Paying Agent outside the United States (or in New York City if permitted by Condition 10(c) (*Payments in New York City*) above).

(i) ***Partial payments:***

If a Paying Agent makes a partial payment in respect of any Bearer Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.

(j) ***Exchange of Talons:***

On or after the maturity date of the final Coupon which is (or was at the time of issue) part of a Coupon Sheet relating to the Notes, the Talon forming part of such Coupon Sheet may be exchanged at the Specified Office of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent for a further Coupon Sheet (including, if appropriate, a further Talon but excluding any Coupons in respect of which claims have already become void pursuant to Condition 14 (*Prescription*)). Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

(k) ***CMU:***

Notwithstanding the foregoing, all payments of principal and interest in respect of Notes held in the CMU will be made to the person(s) for whose account(s) interests in the relevant Note are credited as being held with the CMU in accordance with the CMU Rules (as defined in the Agency Agreement) at the relevant time as notified to the CMU Lodging and Paying Agent by the CMU in a relevant CMU Instrument Position Report (as defined in the Agency Agreement) or any other relevant notification by the CMU, which notification shall be conclusive evidence of the records of the CMU (save in the case of manifest or proven error) and payment made in accordance thereof shall discharge the obligations of the Issuer and the Guarantor, as the case may be, in respect of that payment.

(l) ***Payment of US Dollar Equivalent:***

The following provisions apply to Notes denominated in Renminbi only. Notwithstanding the foregoing, if by reason of Inconvertibility, Non-transferability or Illiquidity, the Issuer or the Guarantor, as the case may be, is not able to satisfy payments of principal or interest in respect of Notes denominated in Renminbi when due in Renminbi in Hong Kong, the Issuer or the Guarantor, as the case may be, may, on giving not less than 10 Hong Kong Banking Days' or more than 30 calendar days' irrevocable notice to the Noteholders prior to the due date for payment, settle any such payment in US Dollars on the due date at the US Dollar Equivalent of any such Renminbi denominated amount.

For the purposes of these Conditions:

The Notes and the Trust Deed and any non-contractual obligations arising out of or in connection with the Notes and the Trust Deed are governed by English law.

(b) **Jurisdiction:**

The parties to the Trust Deed have (i) agreed that the courts of England have exclusive jurisdiction to settle any dispute (a "**Dispute**"), arising out of or in connection with the Trust Deed or the Notes (including a dispute regarding the existence, validity or termination of the Trust Deed or the Notes and all non-contractual obligations arising out of or in connection with them) or the consequences of their nullity; and (ii) agreed that those courts are the most appropriate and convenient courts to settle any Dispute and, accordingly, that they will not argue to the contrary. Notwithstanding the above, the Trustee or any of the Noteholders may take proceedings relating to a Dispute ("**Proceedings**") in any other courts with jurisdiction. To the extent allowed by law, the Trustee or any of the Noteholders may take concurrent Proceedings in any number of jurisdictions.

(c) **Process Agent:**

In the Trust Deed, AstraZeneca Finance has agreed that the documents which start any Proceedings or any other documents required to be served in relation to those Proceedings may be served on it by being delivered to AstraZeneca PLC which is presently at 1 Francis Crick Avenue, Cambridge Biomedical Campus, Cambridge CB2 0AA for the time being and undertakes that, in the event of AstraZeneca PLC ceasing so to act or ceasing to be registered in England, it will appoint another person as its agent for service of process in England in respect of any Proceedings in England. Nothing in this paragraph shall affect the right of the Trustee or, failing the Trustee, any Noteholder, to serve process in any other manner permitted by law.

Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.]

[*Consider any negative target market.*] Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to EU MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

[UK MiFIR product governance/Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law of the UK by virtue of EUWA ("**UK MiFIR**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Tranche of Notes represented by a Global Note in bearer form, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held (i) in the case of a Global Note not lodged with CMU, by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper, or (ii) in the case of a Global Note lodged with CMU, a sub-custodian for CMU.

In relation to any Tranche of Notes represented by a Global Registered Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the person in whose name such Global Registered Note is for the time being registered in the Register which, for so long as the Global Registered Note is held by or on behalf of a depositary or a common depositary or a common safekeeper for Euroclear and/or Clearstream and/or a sub-custodian for the CMU and/or any other relevant clearing system, will be that depositary or sub-custodian or common depositary or common safekeeper or a nominee for that depositary or sub-custodian or common depositary or common safekeeper, as the case may be.

Each of the persons shown in the records of Euroclear, Clearstream and/or any other relevant clearing system as being entitled to an interest in a Global Note or a Global Registered Note (each an "Accountholder") must look solely to Euroclear, Clearstream and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the relevant Issuer or the Guarantor, as the case may be, to the holder of such Global Note or Global Registered Note and in relation to all other rights arising under such Global Note or Global Registered Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under a Global Note or Global Registered Note will be determined by the respective rules and procedures of the relevant Clearing System(s) and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by a Global Note or Global Registered Note, Accountholders shall have no claim directly against the relevant Issuer or the Guarantor, as the case may be, in respect of payments due under the Notes and such obligations of the relevant Issuer or the Guarantor, as the case may be, will be discharged by payment to the holder of the Global Note or Global Registered Note.

If a Global Note or a Global Registered Note is lodged with a sub-custodian for or registered with the CMU, the person(s) for whose account(s) interests in such Global Note or a Global Registered Note are credited as being held in the CMU in accordance with the CMU Rules as notified by the CMU to the CMU Lodging and Paying Agent in a relevant CMU Instrument Position Report or any other relevant notification by the CMU (which notification, in either case, shall be conclusive evidence of the records of the CMU save in the case of manifest error) shall be the only person(s) entitled or in the case of Registered Notes, directed or deemed by the CMU as entitled to receive payments in respect of Notes represented by such Global Note or Global Registered Note and the Issuer and the Guarantor will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note or Global Registered Note are credited as being held in the CMU in respect of each amount so paid. Each of the persons shown in the records of the CMU, as the beneficial holder of a particular nominal amount of Notes represented by such Global Note or Global Registered Note must look solely to the CMU Lodging and Paying Agent for his share of each payment so made by the Issuer and/or the Guarantor in respect of such Global Note or Global Registered Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of an NGN, effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by the relevant Clearing System(s) and/or any other relevant clearing system and received

by the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Notes have not been delivered by 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (London time or, as the case may be, Hong Kong time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Principal Paying Agent or, as the case may be, the CMU Lodging and Paying Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time or, in the case of Notes lodged with CMU, Hong Kong time)

on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder.

Exchange of Global Registered Notes

Whenever the Global Registered Note is to be exchanged for Individual Note Certificates, the relevant Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Registered Note within 30 business days of the delivery, by or on behalf of the registered holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar.

Business Environment

The pharmaceutical sector continues to grow against a backdrop of increasing demand for healthcare. Global pharmaceutical sales grew by 10 per cent. in 2025².

Impact of global trends

Shifting economic power

Economic power is shifting from the G7 to the largest emerging markets, such as China and countries with large populations, including India and Indonesia, altering global economic dynamics and creating new opportunities and challenges. For example, the G7 comprised some 65 per cent. of global GDP in 2000 which is expected to drop to less than one third by 2050.³

Global instability

Continuing geopolitical tensions and shifting alliances are creating a more volatile global landscape, impacting international relations and stability. This includes the rise of economic nationalism, sustained strategic rivalry between the US and China, as well as conflicts, such as the war in Ukraine and conflict in the Middle East, as well as 'grey zone' conflict – the contested arena between routine diplomacy and open warfare.

Changing populations

The UN predicts the global population will reach 9.7 billion by 2050.⁴ Key trends include continued urbanisation, falling birth rates in many countries, notably South Korea, Japan and within Western Europe, and an ageing population, with those aged 65 and older set to triple by 2100. Furthermore, the ratio of retirees to workers will rise dramatically as the share of younger people declines, putting structural pressure on pay-as-

you-go pensions and on health and long-term care financing. Population growth is also becoming more concentrated, with much of the growth coming from Africa and South Asia.

Increasing international friction

The political climate has acute consequences for security, trade and global collaboration. Some governments deliberately use economic ties, such as access to critical minerals, to gain strategic leverage over others, thereby increasing the risk of supply chain disruption. However, such trends also present opportunities as companies are encouraged to localise operations to mitigate supply chain risks. As a consequence, AstraZeneca is investing in robust and flexible supply chains and a strong global manufacturing footprint.

Global economy in flux

Before the Iran conflict global growth was projected to remain resilient at 3.3 per cent. in 2026 and at 3.2 per cent. in 2027 – rates similar to the estimated 3.3 per cent. outturn in 2025.⁵ In addition, healthcare budgets are under pressure which is leading to downward pressure on pricing. AstraZeneca works closely with payers and policymakers to deliver locally affordable medicines. In 2025, AstraZeneca reached an agreement with the US Government to lower the cost of medicines for US patients.

Increasing healthcare demands

Demographic change is driving an increased demand for healthcare across all age groups. However, people in low- and middle-income countries are disproportionately affected by non-communicable diseases ("NCDs"), as 82 per cent. of NCD deaths occur in these countries. In total, NCDs represent 75 per cent. of non-pandemic-related deaths globally.⁶ Through AstraZeneca's health equity programme, it aims to close healthcare gaps and to give people everywhere the chance to be as healthy as possible.

Changing the way AstraZeneca works

Rapid advances in the field of AI and machine learning are enhancing AstraZeneca's ability to process and understand vast amounts of data. AI will unlock value and bring new risks. Generative AI is estimated to unlock US\$4-7 billion in value for pharmaceutical companies.⁷ Guided by AstraZeneca's principles of ethical and responsible data and AI use, new technologies enable it to deliver better medicines and treatments, more quickly, to more patients.

Deep interconnection between climate and health

The climate crisis is amplifying health inequities and putting additional strain on health systems. Older adults, children, outdoor workers, and low- and middle-income communities face heightened risks from heat-related cardiovascular, respiratory, renal and neurological harms. AstraZeneca is pursuing ambitious science-based decarbonisation targets to achieve net zero by 2045.⁸

Opportunities and challenges for the sector

The use of advancements in science and digital technologies offer the potential to revolutionise the healthcare industry. However, coupled with growing distrust of governments, political leaders and more generally, information, concerns around the politicisation of science can exacerbate existing issues.⁹

Strategy

AstraZeneca is dedicated to transforming the future of healthcare by unlocking the power of what science can do for people, society and the planet. AstraZeneca: (i) invests in new technologies and modalities to deliver the next wave of pipeline innovation and life-changing medicines; (ii) focuses on areas where it can transform patient outcomes through novel medicines and combinations; (iii) delivers a diversified portfolio of medicines across primary care, speciality care and rare disease through its broad-based global network and (iv) operate

responsibly, harnessing the power of science and innovation, and its global reach, to help build a healthier, more sustainable future.

AstraZeneca's Growth Through Innovation strategy has three priorities, whose effective delivery will help AstraZeneca achieve its financial targets:

1. Science and innovation
2. Growth and Therapy Area ("TA") leadership
3. People and sustainability

1. *Science and innovation*

This pillar focuses on how AstraZeneca can revolutionise the way it works through advances in science and technology, enabling it to push boundaries to deliver new and better medicines and treatments more quickly to more patients by:

- Delivering the next wave of pipeline innovation.
- Accelerating platform of therapeutic modalities.
- Transform R&D ways of working.

2. *Growth and TA leadership*

The second strategic pillar focuses on transforming care and meeting the increasing demand for healthcare through improving access to AstraZeneca's medicines, expanding treatment options and enabling patients to take control of their own health by:

- Delivering industry-leading growth in AstraZeneca's TAs.
- Improving patient outcomes by transforming care.
- Realising industry-leading supply chains.

3. *People and sustainability*

The third strategic pillar focuses on the interconnection between business growth and societal needs, AstraZeneca's sustainability strategy is focused on action on climate and nature, health equity and health systems resilience. AstraZeneca cultivates an inclusive, diverse workplace where employees thrive and are empowered to make an impact for people, society and the planet.

AstraZeneca's strategic focus areas are:

- Delivering a great employee experience.
- Leading on climate, equity and resilience.
- Enabling an agile organisation.

Ambition 2030

AstraZeneca's ambition is to be pioneers in science, lead in its disease areas and transform patient outcomes. By 2030, AstraZeneca aims to launch at least 20 new medicines and achieve US\$80 billion in total revenue with sustained growth thereafter.

Organisation

AstraZeneca's business is organised to deliver its Growth Through Innovation strategy. The success of its functions is built on recruiting, retaining and developing talented people.

Science and innovation

AstraZeneca is focused on science and innovation, from discovery through to development and life-cycle management, and on transforming care and outcomes for patients. AstraZeneca has three TA-focused R&D organisations – Oncology, BioPharmaceuticals and Rare Disease.

Growth and TA leadership

AstraZeneca is focused on launching medicines that deliver sustainable growth and realising the potential of its pipeline. Its commercial regions align product strategy and commercial delivery while its operations function manufactures and delivers its medicines.

Digital Technologies

The use of AI supports AstraZeneca's strategy by accelerating innovation, improving outcomes, and driving productivity and efficiency.

In December 2025, AstraZeneca created a dedicated Enterprise AI unit to bring together AI expertise and accelerate the delivery of Ambition 2030. Partnering with the business, this team will advance a unified enterprise AI transformation, prioritise and scale high value initiatives, manage change effectively, and unlock synergies that amplify impact.

In R&D, AstraZeneca is developing an ecosystem of foundation models and AI agentic frameworks to accelerate AstraZeneca's drug discovery end-to-end. This ecosystem is expected to transform AstraZeneca's clinical development, leveraging AstraZeneca's key differentiator – its data. Examples include: (i) REINVENT, AstraZeneca's small molecule discovery platform, now enables significant time savings by predicting molecular properties and optimising potential molecules before synthesis and further development. Over 90 per cent. of AstraZeneca's small molecule discovery pipeline is AI-enabled, with similar approaches actively applied to other areas, including biologics; (ii) MILTON integrates de-identified health records with genetic and protein data to develop models that can predict the risk of more than 1,000 diseases, sometimes 10 to 15 years before they are clinically diagnosed; (iii) computational pathology solutions achieved FDA Breakthrough Device Designation as part of an AI-driven companion diagnostic, and released multi-cancer, cross-target quality control system models, and identified promising biomarkers in gastric cancer.

AstraZeneca is rapidly integrating AI into clinical workflows from study design to site and patient selection – enhancing scientific decision-making and enabling broader, diverse patient groups to participate without compromising research quality.

In commercial, partnering with leading technology companies is enabling AstraZeneca to tackle healthcare challenges. In over 20 markets, more than six million AI-enabled chest x-rays support early screening for high-risk lung nodules, improving referral and diagnostic pathways for possible lung cancer. In precision diagnostics, AstraZeneca published an AI-driven computational pathology validation study that used advanced image analysis and machine learning to evaluate HER2 in breast cancer tissue. AstraZeneca is also deploying AI to increase efficiency, optimise content creation and enhance the relevance of physicians' interactions.

In Operations, AstraZeneca is scaling AI to build an intelligent, autonomous, sustainable supply network that reduces lead times, drives productivity, and cuts waste. AstraZeneca's synthetic drug development timelines are shortened thanks to its agentic AI platform, which integrates scientific knowledge and simulation models. AstraZeneca's award-winning Digital Changeover solution is deployed across 17 sites and over 95 per cent. of eligible packing lines. To ensure uninterrupted supply, AstraZeneca is engineering a resilient, self-healing supply chain using predictive sensing and autonomous planning.

Underpinning AstraZeneca's Enterprise AI transformation is its risk-based AI Governance Framework, based on global laws, regulations and standards for best practice, and ensuring responsible use. It includes policies, processes, and guardrails for building, buying, and using AI, to manage risks while maximising the value of AI. AstraZeneca continues to upskill its teams to advance a digital first mindset and optimise transformation at scale.

Cybersecurity

Recognising the important role AstraZeneca's employees play in managing its cybersecurity risk, AstraZeneca provides cybersecurity training, conduct recurring phishing simulations and has a Cybersecurity Culture and Awareness programme including regular messaging via internal communications. The annual cybersecurity training is mandatory for all active employees and is designed to reduce risk and improve resilience. In 2025, new content included emerging AI scenarios and reinforced AstraZeneca's new AI standards.

AstraZeneca launched a Disaster Recovery Programme in 2025, focused on strengthening AstraZeneca's recovery capabilities and response frameworks to support the resilience of critical business applications. Continued evolution is required to keep pace with changing business demands and an increasingly dynamic technology landscape – ensuring recovery strategies, tooling, and response practices remain current, scalable, and consistently effective.

Data privacy

The Enterprise Data Office ("EDO") has established data governance practices that are managed through a control framework sponsored by AstraZeneca's Enterprise Data Council ("EDC"). The EDO strengthens and standardises data governance by partnering with other data functions across AstraZeneca and acting as a central hub for data management and related regulatory compliance. This approach also ensures that AstraZeneca's data policies and standards are streamlined, clear and effective.

In 2025, AstraZeneca released a new standard operating procedure for the management of personal data incidents and a revised standard for data retention management. These updates aim to reduce the likelihood of personal data incidents. Key privacy compliance concerns are reported via the SET data governance boards, EDO, EDC and appointed senior leaders. Breaches and policy deviations can also be reported to AZ Ethics via a helpline or its website.

People and sustainability

AstraZeneca is committed to its people, ensuring that it remains a great place to work. It promotes health equity and resilient healthcare, and plays an active role in addressing the climate crisis. AstraZeneca operates in a responsible and sustainable way to build a healthy future for people, society and the planet.

Responsible sales and marketing

Responsible sales and marketing practices are essential for AstraZeneca to maintain compliance with stringent regulatory frameworks, protect patient safety, and foster trust with healthcare professionals and the public. By adhering to ethical standards and all relevant laws, AstraZeneca ensures that its products are promoted transparently and in line with global healthcare expectations. AstraZeneca emphasises transparency, integrity and accountability in its operations, ensuring that its marketing strategies accurately reflect the efficacy and safety of its products.

At AstraZeneca, responsible sales and marketing practices are embedded in its Code of Ethics (the "**Code**"), Global Standards on anti-bribery and anti-corruption ("**ABAC**") and promoting its products, and its patient-centric values. AstraZeneca's compliance professionals advise on, and monitor adherence to, its Code and policies, and work with local staff to ensure AstraZeneca meets its high ethical standards. Nominated signatories review product promotional materials and activities to ensure compliance with applicable regulations and codes of practice, and that information is accurate and balanced. Group Internal Audit conducts risk-based audits of marketing companies and other business units.

AstraZeneca's Code training continues to have a pathway tailored for its customer-facing Sales and Marketing employees with scenarios relevant to the highest risks in their roles. In 2025, AstraZeneca identified 10 confirmed external breaches across its Commercial business. Confirmed external breaches comprise cases where AstraZeneca has been found to violate a law, industry code, or regulation by an external authority.

Anti-bribery and anti-corruption

Adhering to high standards of business conduct and ABAC principles is critical for AstraZeneca to meet global regulatory requirements, preserve ethical integrity, and safeguard stakeholder trust. AstraZeneca does not

tolerate bribery or any other form of corruption. Preventing bribery and corruption is a focus of AstraZeneca's third-party risk management and due diligence processes, as well as its monitoring and audit programmes.

AstraZeneca's ABAC Global Standard, which was updated in 2025, outlines its key ABAC principles and is complemented by additional Global Standards and local requirements. Through AstraZeneca's Global Compliance programme and associated policies and other controls, AstraZeneca strives to comply with all applicable ABAC legislation, including the UK Bribery Act 2010, which is aligned with the United Nations Convention against Corruption.

Restructuring

Post Alexion Acquisition Group Review ("PAAGR")

In conjunction with the acquisition of Alexion in 2021, the enlarged Group initiated a comprehensive review, aimed at integrating systems, structure and processes, optimising the global footprint and prioritising resource allocations and investments. Except as referenced below, these activities are expected to be substantially complete by the end of 2026.

During 2023, AstraZeneca identified all remaining activities and finalised the scope of the programme. During 2025, AstraZeneca undertook an assessment of the planned activities within the PAAGR programme, this resulted in a decrease of US\$0.4 billion in expected one-time restructuring costs, bringing the total expected costs to US\$4.0 billion, of which approximately US\$2.8 billion are cash costs and US\$1.2 billion are non-cash costs, and capital investments of approximately US\$2.2 billion.

The PAAGR programme includes the commencement of work on the planned upgrade of the Group's Enterprise Resource Planning IT systems, which is expected to be substantially complete by the end of 2030, resulting in capital investments for software assets of US\$1.3 billion and one-time restructuring cash costs of US\$0.5 billion, over the full course of the project.

Run-rate pre-tax benefits, before reinvestment, are now expected to be approximately US\$2.2 billion by the end of 2026. In line with established practice, restructuring costs will be excluded from AstraZeneca's Core (non-GAAP) financial measures.

In 2025, AstraZeneca recorded restructuring charges of approximately US\$0.2 billion in relation to the PAAGR (2024: US\$1.1 billion), bringing the cumulative charges to date under this programme to US\$3.4 billion.

As at 31 December 2025, the PAAGR has realised annual run-rate pre-tax benefits, before reinvestment, of US\$1.9 billion.

Other programmes

Legacy programmes include the centralisation of AstraZeneca's global R&D footprint. Net costs for legacy programmes in 2025 were US\$6 million (2024: US\$39 million).

The aggregate restructuring charge incurred in 2025 across all of AstraZeneca's restructuring programmes was US\$237 million (2024: US\$1,154 million). Final estimates for programme costs, benefits and headcount impact in all functions are subject to completion of the requisite consultation in the various areas.

AstraZeneca's priority, as it undertakes these restructuring initiatives, is to work with its affected employees on the proposed changes, acting in accordance with relevant local consultation requirements and employment law.

Research and Development

In 2025, AstraZeneca continued to progress its science and pipeline, committed to early diagnosis and treatment, improving its understanding of disease biology and advancing its scientific modalities across disease areas.

Enhancing AstraZeneca's understanding of disease biology

Advancing AstraZeneca's understanding of disease biology is helping uncover novel drivers for the diseases it aims to prevent, treat and even cure. Selecting the right target remains the most important decision in drug discovery.

2025 developments included: (i) achieved 40 per cent. representation of individuals with non-European genetic ancestries in AstraZeneca's human genomic datasets, driving several high-impact publications that demonstrate the importance of diversity in genetic research; (ii) delivered industry-leading genomic insights while remaining sustainable, redesigning algorithms that cut CO2 emissions and compute time by 99.8 per cent. compared to global standards; (iii) launched partnership with Illumina and industry partners to generate a 1-billion cell atlas, accelerating novel target discovery and expanding AI training data 1,000-fold through improved disease understanding; and (iv) established landmark 10-year partnership with the University of Gothenburg, Knut and Alice Wallenberg Foundation, and Region Västra Götaland to tackle obesity and metabolic diseases including a new Gothenburg-based research professorship launching in 2026.

Creating the next generation of therapeutics

AstraZeneca continues to advance its intentionally diverse portfolio of therapeutic modalities across disease areas, including cutting-edge platform technologies for innovative small molecules, biologics and genomic medicines.

2025 developments included: (i) advanced AstraZeneca's proprietary antibody drug conjugates with Phase I clinical data for torvu-sam (FR α) in ovarian cancer presented at ESMO and first subject in for the pivotal BLUESTAR-Endometrial01 trial with puxi-sam (B7-H4)s; (ii) data published in Nature Communications describes AstraZeneca's novel platform for enabling next-generation engineered TCR-T therapies based on high-throughput TCR discovery from diagnostic tumour biopsies; (iii) Expanded AZD0120 (BCMAxCD19 dual targeting) autologous CAR T-cell therapy programme across oncology, immunology and rare diseases with clinical data presented at The American Society for Hematology Annual Meeting from AstraZeneca's first US trial demonstrating high complete response rates in multiple myeloma and an encouraging safety profile. AZD0120 expansion continued in systemic lupus erythematosus with Phase I starts and Investigator Initiated data presented at the European Alliance of Associations for Rheumatology and the American College of Rheumatology, as well as Phase I starts in multiple sclerosis, a basket study in rheumatoid arthritis systemic sclerosis and idiopathic inflammatory myopathies, and rare diseases including amyloid light-chain amyloidosis; (vi) advanced pipeline of CD8+ guided modalities, designed for more selective tumour-targeting with multiple disclosures including AZD9793 (GPC3 T-cell engager) and AZD6750 (CD8+ IL-2 immunocytokine); (v) acquired EsoBiotec to accelerate AstraZeneca's in vivo cell therapy build through their ENaBL platform capabilities; (vi) entered into an agreement with Jacobio Pharma for JAB-23E73, a clinical-stage oral small molecule pan-KRAS inhibitor, with potential in pancreatic, colorectal and non-small cell lung cancers; (vii) Advancing genomic medicines into the clinic: gene therapy for BAG-3-related dilated cardiomyopathy and first siRNA therapy targeting complement C3 for antibody-mediated rejection after kidney transplantation, alongside expanded collaboration with JCR Pharmaceuticals and investment in Yoltech Therapeutics; (viii) progressed several novel molecular entities within CVRM into Phase I clinical trials,

Better predicting clinical success of AstraZeneca's candidate drug molecules

AstraZeneca is adopting a range of cutting-edge technologies, generating data that are more relevant to patients than previous methods, to help predict the clinical effectiveness of its candidate drug molecules.

2025 developments included: (i) established three-year collaboration with Sahlgrenska University to further AstraZeneca's current adipose tissue research capabilities to support healthy weight loss programmes aiming to address adipose tissue dysfunction; (ii) in collaboration with Roche Tissue Diagnostics and Daiichi Sankyo, received US Food and Drug Administration ("FDA") Breakthrough Device Designation ("BDD") for the VENTANA TROP2 RxDx Computational Solution which incorporates Quantitative Continuous Scoring, marking the first BDD for an AI-driven companion diagnostic; (iii) accelerated covalent drug discovery through advanced technology and strategic collaborations, including with the Gygi Lab at Harvard Medical School, to target previously undruggable proteins across multiple therapeutic areas; (iv) established strategic AI collaborations with Tempus and Pathos to develop the largest multimodal oncology foundation model. AstraZeneca acquired Modella AI to advance foundation models across oncology clinical development, in addition to advancing existing and new collaborations with ImmunAI, Syneron Bio, Stanford Medicine and Algen Biotechnologies – to complement its robust internal AI capabilities and enhance drug discovery and the probability of clinical success.; and (v) accelerated the identification of novel small molecules, oligonucleotides and biologics by applying AI technologies to predict molecular properties before synthesis so AstraZeneca can prioritise those most likely to deliver patient benefit.

Pioneering new approaches to engagement in the clinic

AstraZeneca is designing and delivering patient-centric clinical trials that improve the patient and site team experience while optimising the use of data, digital technologies and AI.

2025 developments included: (i) advanced AI medical devices for early, accurate detection of rare diseases, including hypophosphatasia in adults and FDA-cleared AI for cardiac amyloidosis, through collaborations with Pangaea Data and InVision; and (ii) transformed clinical trial operations across therapy areas through enhancing AI-driven patient data collection and digital consent, reducing consent form length by 35 per cent., migrating 19 studies to new systems, and cutting processing time from 10 weeks to two.

Development Pipeline Overview

2025 was another remarkable year for pipeline development. AstraZeneca achieved 97 regulatory events, either submissions or approvals for its medicines in major markets, including one NME first approval. This success is supported by a robust pipeline of promising medicines. AstraZeneca had 38 significant pipeline progression events, including NME Phase II starts and pivotal Phase II/III investment decisions, showcasing AstraZeneca's potential for sustainable growth.

AstraZeneca's pipeline comprises 197 projects, of which 176 are in the clinical phase of development. It has 20 NME projects in pivotal trials or under regulatory review, up from 19 at the end of 2024. In 2025, 35 NMEs progressed to their next development phase, while 20 projects were discontinued: 11 due to safety or efficacy, eight due to strategic shifts and one due to regulatory reasons.

Accelerating AstraZeneca's pipeline

AstraZeneca is prioritising its investment in specific programmes, focusing on scientific innovation, patient benefit and return on investment. This has led to AstraZeneca receiving 12 Regulatory Designations for Breakthrough Therapy, Priority Review, Accelerated or Fast Track for 10 new medicines which offer potential to address unmet medical need in certain diseases. It also secured Orphan Drug Designation for the development of three medicines to treat rare diseases.

Animals in research

The responsible use of animals is a vital part of biomedical research and product safety testing, where suitable alternatives are not available. At the centre of AstraZeneca's commitment to quality science and animal welfare are the Replacement, Reduction and Refinement of animals in research (the 3Rs). All animal studies are undertaken in compliance with all relevant local and national laws and regulations, and with the principles of the 'Guide for the Care and Use of Laboratory Animals' (Institute for Laboratory Animal Research). Wherever possible, AstraZeneca works with third parties accredited by the Association for the Assessment and Accreditation of Laboratory Animal Care International.

Animals were needed for in-house studies 138,356 times in 2025 (2024: 141,947), and on AstraZeneca's behalf in contract research studies 63,869 times (2024: 63,810). In total, over 97 per cent. were rodents or fish, with the majority being mice (85 per cent.). The remainder is made up of rabbits, camelids, ferrets, dogs, pigs, non-human primates, chickens and sheep. Dogs and non-human primates make up less than 1 per cent. of the total. AstraZeneca does not conduct research using wild-caught non-human primates or great ape species, and AstraZeneca has an animal welfare assurance programme that ensures research conducted by third parties meets its high standards. AstraZeneca is committed to transparency and is signatory to the Concordat on Openness on Animal Research (UK), the Openness Agreement on Animal Research and Teaching (Australia/New Zealand) and the U.S. Animal Research Openness Agreement.

Delivering growth

In 2025:

- AstraZeneca's total revenue, comprising product sales, alliance revenue and collaboration revenue, increased by 9 per cent. (8 per cent. at CER) to US\$58,739 million;
- AstraZeneca committed to high ethical standards: 434 employees and third parties were removed from their role as a result of a breach; and
- AstraZeneca delivered 217 successful on-time market launches.

Sales and marketing

AstraZeneca's growth is delivered by its commercial teams, which employed 47,400 people at the end of 2025. AstraZeneca has an active presence in more than 80 countries and sells its products in more than 125 countries. In most markets, AstraZeneca sells its medicines through wholly-owned local marketing companies, as well as distributors and local representative offices. AstraZeneca's products are primarily marketed to primary and specialty care physicians.

US

Total revenue increased by 10 per cent. in 2025 to US\$25,450 million, driven by the continued demand growth of AstraZeneca's medicines.

The US healthcare system is complex. Multiple payers and intermediaries influence patient access to branded medicines through regulatory rebates in government programmes and voluntary rebates paid to private insurers for commercially insured patients. Significant pricing pressure is driven by payer consolidation, restrictive reimbursement policies and cost control tools which reduce patient access.

In October 2025, AstraZeneca announced an agreement with the US administration to lower the cost of prescription medicines in America. AstraZeneca voluntarily agreed to a range of measures that will enable the American healthcare system and patients to access medicines at prices that are equalised with those available in other wealthy countries. AstraZeneca also reached an agreement with the US Department of Commerce for a three-year exemption of Section 232 tariffs on medicines imported to the US, enabling the Group to onshore medicines manufacturing so that substantially all of its medicines sold in the US are made in the US.

The Inflation Reduction Act ("**IRA**") of 2022 was passed to address Medicare spending concerns. *Farxiga* was selected for the first round of Medicare price negotiations under the IRA. As the Maximum Fair Price for

Medicare has now taken effect in 2026, coinciding in the same year as the expected US loss of market exclusivity that will also reduce *Farxiga*'s price, the overall impact is expected to be manageable.

Calquence was selected for the second round of price negotiations in 2025. Its Maximum Fair Price for Medicare will take effect in 2027. AstraZeneca's diversified product portfolio, providing a broad spectrum of treatments across therapy areas, well position it to mitigate business impact.

Emerging Markets

Total revenue in Emerging Markets predominantly comprising countries in Latin America, the Middle East, Africa and Asia, was US\$15,303 million, up 12 per cent. (14 per cent. at CER). Total revenue for China increased by 4 per cent. (four per cent. at CER) to US\$6,654 million (2024: US\$6,413 million). Ex-China Emerging Markets Total Revenue grew by 19 per cent. (22 per cent. at CER), with continued increased across all therapy areas.

Following the Russian invasion of Ukraine in February 2022 AstraZeneca continues to provide practical support to ensure the safety, health and wellbeing of its employees. As a healthcare business, AstraZeneca is doing everything possible to ensure medical supply chains continue to operate and that patients in both countries are able to access its medicines, while complying with sanctions imposed on Russia.

Europe

Total revenue was US\$12,739 million, up 5 per cent. (1 per cent. at CER), with continued growth in Oncology and BioPharmaceuticals.

Established Rest of World

Established Rest of World comprises Japan, Canada, Australia and New Zealand. In 2025, total revenue increased by 5 per cent. (6 per cent. at CER) to US\$5,247 million, with sales in Japan up 6 per cent. (five per cent. at CER) to US\$3,768 million. Growth was driven by strong performance from Oncology and R&I medicines.

Operations

AstraZeneca's manufacturing and supply function continued to support business growth and pipeline development, maintaining excellence in product launch, quality and resilient supply, with focus on progressive, sustainable processes. In 2025, AstraZeneca made strong progress against its Operations strategic goals, expanding capacity and new modality capability, while leveraging new technology and AI innovations to sustainably support the demands of the business: (i) AstraZeneca delivered 217 successful on-time market launches across markets; (ii) AstraZeneca progressed its investments in manufacturing footprint, technology and AI innovations; and (iii) AstraZeneca's Operations function achieved an 89 per cent. reduction in its Scope 1 and Scope 2 global greenhouse gas ("**GHG**") emissions, a 24 per cent. reduction in water use, and a 23 per cent. reduction in waste against a 2015 baseline.

Patient safety and product quality

AstraZeneca's business model requires the supply of safe and high-quality medicines, which are constantly and carefully monitored during their entire life-cycle. AstraZeneca is dedicated to patient safety and bases its behaviours on its belief that everyone deserves to have confidence in the safety, quality and efficacy of its medicines.

AstraZeneca ensures that the development, licensing, manufacturing, distribution and monitoring of active pharmaceutical ingredients ("**APIs**"), medicinal products and devices comply with international codes, Good Pharmaceutical Practices, including Good Manufacturing Practice, Good Distribution Practice and Good Pharmacovigilance Practices, and AstraZeneca's Good Regulatory Practice. AstraZeneca continuously monitors the safety, quality and efficacy of its medicines throughout their life-cycle to maintain product confidence.

AstraZeneca ensures patient safety through key policies and standards such as its Code, Quality Policy, Quality Standards and Good Pharmaceutical Practice. AstraZeneca is also a member of the Biotechnology Innovation Organization, International Federation of Pharmaceutical Manufacturers and Associations, the European

Federation of Pharmaceutical Industries and Associations, the Pharmaceutical Research and Manufacturers of America and the Association of the British Pharmaceutical Industry, and adhere to their industry codes.

Managing AstraZeneca's supply chain

In a year marked by elevated geopolitical and macroeconomic turbulence and capacity shortages, the external environment tested supply chains globally. Drug shortages reached record levels, weather-related disruptions intensified, quality challenges persisted industry-wide, and geopolitical events now encompass trade and tariff uncertainty, driving cost pressure and friction at borders. Simultaneously, conflicts and instability in key regions forced rapid route reconfiguration and heightened the need for robust business continuity planning. Against this backdrop, AstraZeneca has continued to meet its responsibilities to patients. AstraZeneca sustained high customer service, protected supply, ensured quality, launched new products on time, and built capacity and resilience to secure sustainable growth.

Global manufacturing capability

AstraZeneca's principal tablet and capsule formulation and packing sites are in the UK, Sweden, China, Puerto Rico and the US, with local supply sites in Egypt, Japan and Russia, and regional supply sites in Brazil, Indonesia and Mexico. AstraZeneca also has major formulation sites for the global supply of parenteral and/or inhalation products in the US, Sweden, France, Australia and the UK. Most of the manufacture of APIs is delivered through the efficient use of external sourcing that is complemented by expanding use of internal capabilities. For biologics, AstraZeneca's principal commercial manufacturing facilities are in the US, Ireland, Sweden, the UK and the Netherlands. AstraZeneca's network contains capabilities in process development, drug substance and drug product manufacturing, and distribution.

In July 2025, AstraZeneca announced its intention to invest a US\$4.5 billion new manufacturing facility in Charlottesville, Virginia, US. The new facility will produce drug substances for AstraZeneca's weight management and metabolic portfolio, as well as its leading ADC cancer portfolio. The facility will be at the forefront of technological innovation, leveraging AI, automation and data analytics to optimise production. In November 2025, AstraZeneca announced a further US\$2 billion expansion of its manufacturing footprint in Maryland, US. AstraZeneca's investment in its existing Frederick Biologics facility will double capacity. Additionally, AstraZeneca will build a new facility in Gaithersburg, US, to produce medicines for clinical supply.

In May 2025, manufacturing ceased at AstraZeneca's tablet facility in Bangalore, India. The intent to exit was announced in November 2023.

At the end of 2025, AstraZeneca employed 16,900 people at 31 operations sites in 15 countries.

People and sustainability

In 2025, AstraZeneca received 1.2 million applications and hired 19,000 employees (7,000 internal and 12,000 external). In addition:

- Over 5,800 employees participated in a development programme;
- 51.5 per cent. of its senior middle management roles and above are filled by women;
- AstraZeneca updated its health equity strategy, embedding health equity across science, healthcare delivery and community investment; and
- AstraZeneca continued to decarbonise its value chain, including its own operations .

People

AstraZeneca relies on its global workforce to uphold its Code and behaviours in line with its values, to deliver its Ambition 2030 strategic priorities and work to sustain and improve short- and long-term performance.

Enabling an agile organisation

In 2025, AstraZeneca continued to build talent internally by investing in its workforce. AstraZeneca: (i) maintained the focus on building capability in its Global hubs. In 2025, 2,760 external hires were made in these

locations; (ii) continued to develop internal talent and made 5,100 promotions during 2025; and (iii) focused on AI upskilling to enable employees to leverage AI in their roles. AstraZeneca also provided access to an AI agent builder, empowering teams to gain hands-on experience in developing and deploying AI-driven tools.

Developing skills and capabilities

AstraZeneca develops strategic capabilities for the future through targeted and inclusive development programmes, and high potential talent initiatives, supporting employees ranging from early talent and individual contributors to enterprise leaders. Its digital learning portal supports a continuous learning mindset underpinning a high-performing and innovative organisation. Its development programmes help AstraZeneca to unlock potential, drive innovation and foster an inclusive culture, building the capabilities of diverse future leaders in support of AstraZeneca's People strategy. All employees have access to AstraZeneca's global learning platform. AI-adoption is a key aspect of achieving AstraZeneca's strategic objectives by accelerating decision making and innovation. In 2025, more than 50,000 employees participated in AstraZeneca's Thriving in the Age of AI programme. AstraZeneca also continues to embed coaching skills to enhance performance and increase engagement.

Inclusion and diversity goals

AstraZeneca's global commitment to inclusion and diversity is woven into what it does, and is reflected in its Values and the behaviours that underpin them. Women comprise 54 per cent. (approximately 52,000) of AstraZeneca's global workforce and men 45 per cent. (approximately 43,300). At the end of 2025, there were seven women on AstraZeneca's Board (50 per cent. of the total). Five out of 10 SET members (50 per cent.) were women and five were men (50 per cent.). Directors of AstraZeneca's subsidiaries comprised of 209 women (45 per cent.) and 256 men (55 per cent.).

AstraZeneca's Board of Directors and the SET conduct quarterly reviews of its workforce composition. This encompasses gender, ethnicity and age representation among other things.

AstraZeneca is committed to hiring and promoting talent ethically and in compliance with applicable laws. AstraZeneca's Code and its supporting Standards are designed to help protect against unlawful discrimination on any relevant grounds. The Code covers recruitment and selection, performance management, career development and promotion, transfer, training, and reward. AstraZeneca embraces the cognitive differences of neurodivergent employees and supports employees with both seen and unseen disabilities in line with their country-specific laws and regulations. Where risk assessments can be performed, AstraZeneca will consider accommodating adjustments to the working environment that support an inclusive and safe workplace.

AstraZeneca's Global Standard for Inclusion and Diversity sets out how it fosters an inclusive and diverse workforce where everyone feels valued and respected because of their individual abilities and perspectives. In 2025, AstraZeneca's inclusion and diversity efforts earned recognition externally. AstraZeneca were featured in: (i) Forbes World's Top Companies for Women; (ii) Forbes World's Best Employers; (iii) Financial Times, Diversity Leaders 2026; and (iv) TIME World's Best Companies.

Health and Safety

AstraZeneca is committed to providing a work environment that is both physically and psychologically safe for everyone. AstraZeneca's Global Safety, Health and Environment ("SHE") Standard describes its management of and accountability for SHE. It does this by embracing a culture of learning and continuous improvement. AstraZeneca strives to maintain or exceed compliance with all company, legal and regulatory requirements ensuring that it is welcome in the communities in which it operates.

Sustainability

Approach to sustainability

AstraZeneca's sustainability reporting is prepared in line with the UK Companies Act 2006, the EU Corporate Sustainability Reporting Directive and European Sustainability Reporting Standards, EU Taxonomy on Sustainable Activities and the recommendations of the Task Force on Climate-related Financial Disclosures.

Sustainability is embedded in AstraZeneca's Growth Through Innovation strategy, with material sustainability topics aligned to its three strategic pillars and disclosed within the Business Review. This year AstraZeneca

introduced the Sustainability Statement section in the Annual Report, setting out general disclosures such as basis for preparation, an overview of the double materiality assessment process and management of impacts, risks and opportunities, with policies, targets and metrics for each material topic.

Accessible and Affordable Healthcare

AstraZeneca's medicines impact more than 100 million patient lives annually, ranging from cancer and chronic diseases to rare diseases. AstraZeneca is closing healthcare gaps along the entire patient journey to improve access to screening, early detection, diagnosis and treatment, and innovating to deliver its life-changing medicines in a sustainable and equitable way.

Affordability and pricing

AstraZeneca takes a broad and collective approach across diverse global healthcare systems, working with payers and policymakers to promote widespread, sustainable access. AstraZeneca's tailored programmes address local health needs, strengthen health systems resilience and enhance affordability by partnering with country-specific health systems to deliver medicines in a locally accessible way. In 2025, AstraZeneca's key continuous initiatives included: (i) health system strengthening: to build resilient and sustainable health systems, AstraZeneca partners with health system stakeholders to transform care by providing evidence-based recommendations and co-creating solutions that help to reduce disease progression, hospital admissions and premature deaths, globally; (ii) customised solutions for out-of-pocket gaps: supporting patients' ability to stay on prescribed therapies; (iii) patient assistance programmes: assisting those unable to pay and addressing funding gaps, enabling patients to fund part of their treatment in line with their affordability and means, and in a manner consistent with applicable laws; and (iv) tailored payment models: leveraging tiered pricing and innovative solutions such as, value-based agreements, to maximise patient access.

Clinical trial representation

AstraZeneca aims to achieve more representative clinical trial populations to better reflect the patient communities it serves. In 2025, AstraZeneca extended its real-time dashboard for measuring representativeness of Phase III studies to Canada, building on previous launches in the US and Brazil in 2024. AstraZeneca actively participate in public-private partnerships including the Innovative Health Initiative's Research in Europe and Diversity Inclusion, ESMO, and the Cancer Drug Development Forum to enhance trial representativeness, while contributing to the scientific community through publications in the American Society of Clinical Oncology Educational Book series that outline methods for improving clinical trial representation. Additionally, AstraZeneca is partnering with community-focused organisations such as Acclinate and Black Health Matters, as well as not-for-profit organisations including the Sexual Gender Minority Alliance, National Medical Fellowship, and Women Health Access Matters, all aimed at improving representation across its clinical trials.

Key early and post-trial access

AstraZeneca reaffirms its approach to early and post-clinical trial access to medicines, providing its therapies to those in need prior to regulatory approval in specific countries, in addition to its approach to continue treating patients after the termination of clinical trials, ensuring ongoing access and continuity of care. Patients who face serious or life-threatening illnesses, and have exhausted alternative treatment options, will have their requests for early access to investigational medicinal products carefully considered. This applies to those unable to participate in clinical trials, and is carried out through appropriate early access pathways in accordance with local laws and regulations. Where appropriate, AstraZeneca's approach also includes supporting continued treatment after clinical trial participation (post-trial access), ensuring safe, ethical, timely and lawful patient support prior to product approval in their respective countries.

Climate change

In support of AstraZeneca's Ambition 2030, it has set and is delivering action on its corporate climate targets. AstraZeneca is decarbonising its value chain including its own operations, and through global initiatives and collaboration with its own peers, it is driving action to accelerate the delivery of net-zero healthcare. Failure to meet regulatory requirements, voluntary sustainability targets and stakeholder expectations could adversely affect AstraZeneca's reputation with key stakeholders.

Transition plan for climate change

In 2020, AstraZeneca launched its Ambition Zero Carbon strategy, through which it is pursuing decarbonisation targets compatible with the limiting of global warming to 1.5°C and making progress towards achieving net zero by 2045. AstraZeneca's near- and long-term GHG emissions target were verified under the Science Based Targets Initiative ("SBTi") Net-Zero Corporate Standard in 2021. AstraZeneca is targeting a 98 per cent. absolute reduction in Scope 1 and 2 by 2026 (2015 baseline), a 35 per cent. absolute reduction in total Scope 3 by 2030 and 90 per cent. by 2045 (2019 baseline), and net zero by 2045.

Delivering these targets requires whole value-chain decarbonisation across Scopes 1, 2 and 3, through levers which eliminate, reduce, substitute and then neutralise residual emissions to achieve net zero. Specific decarbonisation levers are described below.

AstraZeneca has a near-term target of 98 per cent. absolute reduction in Scope 1 and 2 GHG emissions by 2026 from a 2015 baseline. By the end of 2025, AstraZeneca achieved 88.1 per cent.. AstraZeneca faces localised challenges across its global operations with accessing sources of renewable energy to decarbonise site operations and to procure and operate electric vehicles, that present transition risks for delivering reductions to its Scope 1 and 2 GHG footprint against its 2026 target.

Over 95 per cent. of AstraZeneca's total GHG emissions are in the upstream and downstream value chain. To support AstraZeneca's longer-term target of 35 per cent. reduction in total Scope 3 GHG emissions by 2030 and 90 per cent. reduction by 2045, from a 2019 baseline, it is engaging with suppliers for them to set validated science-based targets to cover most of its supplier spend by the end of 2025. Achieving Scope 3 targets requires extensive global decarbonisation across AstraZeneca's entire supply chain, including AstraZeneca's product portfolio which represents a large portion of its GHG emissions. Pharmaceutical products have a long development cycle, which makes it critical to design and embed climate considerations at an early stage for future products now in development. In addition, to achieve AstraZeneca's goals, it must tackle emissions from its existing commercial portfolio, which creates challenges with heavily regulated production processes and materials.

AstraZeneca is conducting a scheduled review of its SBTi-verified Net-Zero Corporate Standard targets in line with SBTi timelines, taking the opportunity to embed learnings from the past five years. This includes certain targets disclosed in previous years. AstraZeneca expects to communicate the outcomes in 2026.

Governance

AstraZeneca's executive-led SET Sustainability Governance Group is accountable for the delivery of Ambition Zero Carbon and its transition plan. Regular governance updates and proposals are provided to the Group, which in 2025 included AstraZeneca's CEO, CFO, Chief Human Resources Officer and General Counsel, and the EVP, Global Operations, IT & Chief Sustainability Officer. The Sustainability Committee monitors progress on Ambition Zero Carbon. Sustainability reporting is overseen by the Audit Committee. The CEO's responsibilities to the Board include the development and performance of the Ambition Zero Carbon strategy and related risks and opportunities. The EVP, Global Operations, IT & Chief Sustainability Officer is responsible for the Ambition Zero Carbon strategy and its execution, and all SET members have responsibility for working with their teams to ensure alignment of the Ambition Zero Carbon strategy with business priorities and climate risks and opportunities.

Initiatives approved by the SET Sustainability Governance Group are included in the relevant management units' financial planning.

Nature

As AstraZeneca works to enhance patient health outcomes through advances in medical treatments, it aims to manage its dependencies and impacts on nature by designing them out where it can and addressing those that remain across its raw material sourcing, production, use and disposal of its medicines.

AstraZeneca strives to minimise the environmental impact of its products from discovery to disposal, in alignment with its Code. This approach is embedded into key internal processes and procedures through the life-cycle of its medicines, such as the OneSHE Framework.

Pharmaceuticals in the environment

Pharmaceutical residues entering the environment is currently an unavoidable result of the patient use of medicines. AstraZeneca recognises its most material water pollution impact as the APIs in its products. APIs are biologically active molecules and may interact with and impact wildlife in the environment. AstraZeneca has ongoing programmes and processes across the value chain to minimise the impact of pharmaceuticals in the environment, as part of its ambition to lower the environmental burden of healthcare, while improving health outcomes and reducing its exposure to environmental risks.

EcoPharmacoVigilance

AstraZeneca's EcoPharmacoVigilance approach reviews emerging science and peer-reviewed literature to inform and improve AstraZeneca's environmental risk assessments associated with its APIs. AstraZeneca monitors measurements of its products in the water bodies across the world that are published in scientific journals and publish those results on its website, as well as industry-leading dashboard, where users can visualise. It shows that, where detection of AstraZeneca's APIs have been reported in scientific literature, the measured concentrations pose low or insignificant environmental risk in over 99 per cent. of cases. There can be some location-specific environmental risks for particular pharmaceuticals, especially in regions where there may be inadequate sewage treatment and/or high populations discharging waste into rivers with low-dilution conditions.

PFAS Restrictions

In the EU, the European Chemicals Agency ("ECHA") is evaluating a proposed restriction of PFAS, employing a broad, structure-based definition of PFAS. The proposal potentially impacts a family of more than 10,000 chemicals which are used across many industries. In other jurisdictions, including the UK, the US and Canada, policymakers have signalled their intent to restrict, or have initiated reviews aimed at restricting, PFAS chemicals. Definitions of PFAS may vary by jurisdiction, and scopes and timelines for regulatory action differ.

Not all materials classified as PFAS, nor all uses of such materials, present equivalent environmental or human-health risks. Certain PFAS materials play important roles across the biopharmaceutical value chain, supporting process integrity and product quality; in certain applications, technically viable alternatives are not available, making complete substitution challenging.

AstraZeneca applies a science-based approach to its management of PFAS use, which includes ongoing evaluation and implementation of reductions or substitutions of PFAS materials wherever possible, while continuing to protect medicines for patients, including ensuring supply security, patient safety and regulatory compliance. Proposals for blanket bans of PFAS that do not account for essential uses could potentially affect development, manufacturing, packaging and drug delivery of medicines, raising a potential risk of shortages or the removal of therapeutic options, with significant impact for patients and public health.

In the EU and globally, AstraZeneca is working with relevant authorities and experts to ensure any new regulations regarding the use of PFAS meet patient, public health and environmental needs, and protect the supply of medicines to patients in the EU and globally. These activities include industry-wide engagements in public-private partnerships on PFAS exposure, emissions, and end-of-life management in the healthcare sector, as well as AstraZeneca's contributions to the ECHA's public consultations on the PFAS Restriction Proposal.

AZ ethics

AstraZeneca's Code asks employees to report possible violations and provides information on how to do so. This includes via the AZ Ethics helpline and website, which are also available to third parties, as well as AstraZeneca's intranet site and social media platform. This is also included in the annual Code training. AstraZeneca continues to foster a culture where employees can speak their minds, with strong first-line oversight (and related reporting) as well as targeted second-line monitoring to identify concerns early and use learnings to improve its programme. AstraZeneca's Pulse survey enables management and the Board to understand the views and sentiments of its employees, including the proportion of employees who feel comfortable speaking up at work. The resulting report also demonstrates how AstraZeneca's values and behaviours are embedded across the workforce, including a summary metrics dashboard organised by category, with remedial action taken on any concerns identified and discussed as necessary. AstraZeneca also sees regular usage of reporting channels across markets, evidencing that individuals are aware of how to report concerns.

Reporting can be done anonymously, where permitted by local law, through AstraZeneca's helpline or via line managers or relevant functions such as Compliance or HR, who will carry out an investigation. Issues raised via AZ Ethics are triaged and assigned accordingly for action, with cases tracked and monitored for completion. Anyone who raises a potential breach in good faith is fully supported by management in confidence (subject to disclosure obligations in local markets) and AstraZeneca does not tolerate retaliation. Any whistleblower can report violations inside and outside the organisation (to the designated authority or the media), with the same level of protection, regardless of the means of reporting. The most serious incident reports from whistleblowers – those implicating senior leaders or involving other allegations of serious misconduct (including alleged bribery or corruption) – are promptly, independently and objectively investigated by AstraZeneca's Global Compliance Investigations team, an above-market investigatory unit within the Global Compliance function. Investigators are part of Compliance or HR and are not associated with the reporters or the implicated parties. In the event that someone within the Compliance or HR function is the subject of an investigation, the matter is managed by someone not involved with the implicated party and in certain cases, a third party may be retained to conduct the investigation. AZ Ethics is compliant with Directive (EU) 2019/1937 of the European Parliament and of the Council.

There were 4,441 instances (instances can involve multiple people) of employee and third-party non-compliance with AstraZeneca's Code. A total of 434 employees and third parties were removed from their role as a result of a breach and 1,810 received warnings. Breaches primarily consist of low-impact incidents.

TAXATION

The tax laws of the investor's state and of the Issuers' states of incorporation might have an impact on the income received from the securities. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes or the Guarantee, as applicable, and the consequences of such actions under the tax laws of those countries.

In this section, notes issued by AstraZeneca PLC are referred to as "**AZ PLC Notes**" and notes issued by AstraZeneca Finance are referred to as "**AZ Finance Notes**" (together with the AZ PLC Notes, the "**Notes**").

United Kingdom Taxation

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes and the Guarantee, as applicable. It is based on current law and the published practice of HM Revenue and Customs ("**HMRC**"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with any other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes. Prospective Noteholders should be aware that the particular terms of issue of any series of Notes as specified in the relevant Final Terms may affect the tax treatment of that and other series of Notes. The following is a general guide for information purposes and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Noteholders who are in any doubt as to their tax position should consult their professional advisers. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Notes and the Guarantee, as applicable. In particular, Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes and the Guarantee, as applicable even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

Withholding Tax on UK Source Interest

The AZ PLC Notes which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a recognised stock exchange (within the meaning of section 1005 of the Income Tax Act 2007 (the "**Act**") for the purposes of section 987 of the Act) or admitted to trading on a "multilateral trading facility" operated by a regulated recognised stock exchange (within the meaning of section 987 of the Act). Whilst the AZ PLC Notes are and continue to be quoted Eurobonds, payments of interest on the AZ PLC Notes may be made without withholding or deduction for or on account of United Kingdom income tax.

The London Stock Exchange is a recognised stock exchange, and accordingly the AZ PLC Notes will constitute quoted Eurobonds provided they are and continue to be included in the United Kingdom official list and admitted to trading on the Main Market of that Exchange.

In all cases falling outside the exemption described above, interest on the AZ PLC Notes may fall to be paid under deduction of United Kingdom income tax at the relevant rate (currently at the basic rate of 20 per cent., and on and after 6 April 2027 at the savings basic rate of 22 per cent.) subject to such relief or exemption as may be available. However, this withholding will not apply if the relevant interest is paid on the AZ PLC Notes with a maturity date of less than one year from the date of issue and which are not issued under arrangements the effect of which is to render such AZ PLC Notes part of a borrowing which may have a total term of a year or more.

Interest paid by AstraZeneca Finance on AZ Finance Notes is not currently expected to have a UK source and, as such, UK withholding is not expected to be applicable to such interest payments. If such interest did have a UK source, the comments in the preceding paragraphs of this section headed "Withholding Tax on UK Source Interest" and the successive paragraphs of the section below headed "Other Rules relating to Withholding in respect of United Kingdom Tax" would apply.

Payments by the Guarantor

If the Guarantor makes any payments in respect of interest on the AZ Finance Notes (or other amounts due under the AZ Finance Notes other than the repayment of amounts subscribed for the AZ Finance Notes) such payments may be subject to UK withholding tax either at the basic rate of 20 per cent., or potentially (on or after 6 April 2027 only) at the savings basic rate (currently anticipated to be 22 per cent.), subject to such relief as may be available. Such payments by the Guarantor may not be eligible for any of the other exemptions described above.

Other Rules relating to Withholding in respect of United Kingdom Tax

1. Notes may be issued at an issue price of less than 100 per cent. of their principal amount. Any discount element on any such Notes will not generally be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above.
2. Where Notes are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax as outlined above.
3. Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
4. The references to "interest" in this *United Kingdom Taxation* section mean "interest" as understood in United Kingdom tax law. The statements in this *United Kingdom Taxation* section do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation. Noteholders should seek their own professional advice as regards the withholding tax treatment of any payment on the Notes or the Guarantee, as applicable, which does not constitute "interest" or "principal" as those terms are understood in United Kingdom tax law. Where a payment on a Note or the Guarantee does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified by the Final Terms of the Note). In such a case, the payment may fall to be made under deduction of United Kingdom tax at the relevant rate, subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.
5. The above description of the United Kingdom withholding tax position assumes that there will be no substitution of any Issuer (pursuant to Condition 17(c) (*Meetings of Noteholders; Modification and Waiver – Substitution*) of the Notes or otherwise) and does not consider the tax consequences of any such substitution.

United States Taxation

The following is a summary based on present law of certain U.S. federal income tax considerations for prospective purchasers of the Notes. It addresses only Non-U.S. Holders. It does not consider the circumstances of particular purchasers, such as entities or arrangements treated as partnerships or trusts for U.S. federal income tax purposes, that are subject to special tax rules. The discussion is a general summary. It is not a substitute for tax advice. It deals only with Notes with a term of 30 years or less and it assumes the Notes will be treated as debt for U.S. federal income tax purposes.

In this discussion, a "**Non-U.S. Holder**" is a beneficial owner of a Note that is not for U.S. federal income tax purposes (i) a citizen or resident of the United States, (ii) a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes, (iii) a corporation or other entity treated as a corporation organised in or under the laws of the United States or its political subdivisions, (iv) a trust subject to the control of a U.S. person and the primary supervision of a U.S. court or (v) an estate the income of which is subject to U.S. federal income taxation regardless of its source.

Withholding Tax

Interest paid to a Non-U.S. Holder on a Note issued by AstraZeneca PLC will be exempt from U.S. withholding tax.

Subject to the discussion below under "—FATCA Withholding", interest (including any original issue discount which, generally is, the amount by which the redemption price of a Note at maturity exceeds its issue price) paid to a Non-U.S. Holder on a Note issued by AstraZeneca Finance generally will be exempt from U.S. withholding tax if (i) the Non-U.S. Holder is not a "10 percent shareholder" (within the meaning of Sections 871(h)(3) or 881(c)(3) of the U.S. Internal Revenue Code of 1986 (the "**Code**")) of AstraZeneca Finance, (ii) the Non-U.S. Holder is not a "controlled foreign corporation" (within the meaning of Section 864(d)(4) of the Code) related to AstraZeneca Finance, (iii) the Non-U.S. Holder is not treated as a bank holding the Note as an extension of credit in the ordinary course of its banking business for U.S. federal income tax purposes, (iv) payments on the Notes are not contingent interest ineligible for the portfolio interest exemption from U.S. withholding tax (generally interest determined by reference to income, profits, cash flow, sales, dividends or other similar attributes of AstraZeneca Finance or any related person), and (v) the Non-U.S. Holder has furnished to the applicable withholding agent a complete IRS withholding form (generally, an applicable Form W-8) upon which the Non-U.S. Holder certifies, under penalties of perjury, that it is not a United States person. If a Non-U.S. Holder does not satisfy the requirements described above, then, subject to the discussion below under "—Net Income Tax", interest paid to a Non-U.S. Holder on a Note issued by AstraZeneca Finance generally will be subject to U.S. withholding tax at a rate of 30 per cent. (or such lower rate as may be specified by an applicable income tax treaty, provided the Non-U.S. Holder satisfies applicable certification requirements establishing its eligibility for such lower rate).

Disposition

Gain realised by a Non-U.S. Holder on the disposition of a Note generally will not be subject to U.S. withholding tax or income tax unless (i) the gain is effectively connected with such holder's conduct of a trade or business within the United States (as discussed below under "—Net Income Tax") or (ii) the holder is an individual present in the United States for at least 183 days during the taxable year of disposition and certain other conditions are met, in which case, unless an applicable income tax treaty provides otherwise, such gain (which may be offset by certain U.S. source losses) generally will be subject to a 30 per cent. U.S. federal income tax.

Net Income Tax

If a Non-U.S. Holder is engaged in a trade or business within the United States, interest paid to the holder on a Note or gain realised by the holder on the disposition of a Note generally will be subject to U.S. federal income tax on a net income basis if such interest or gain is effectively connected with such holder's conduct of that U.S. trade or business (and, if required by an applicable income tax treaty, is attributable to such holder's U.S. permanent establishment). In addition, a Non-U.S. Holder that is a corporation may be subject to a branch profits tax equal to 30 per cent. (or a lower applicable income tax treaty rate) of its effectively connected earnings and profits, subject to adjustments. Any such effectively connected interest paid on a Note issued by AstraZeneca Finance generally will be exempt from U.S. withholding tax if the Non-U.S. Holder satisfies applicable certification requirements (generally, by providing a properly executed IRS Form W-8ECI).

Information Reporting and Backup Withholding

Payments of principal and interest on, and proceeds from the sale or other disposition of, Notes issued by AstraZeneca Finance will be subject to information reporting unless the Non-U.S. Holders establishes an exemption (generally, by providing an applicable Form W-8). Payments of principal and interest on, and proceeds from the sale or other disposition of, Notes issued by AstraZeneca PLC, effected through a U.S. broker or another middleman with certain connections in the United States, may be subject to information reporting unless the Non-U.S. Holders establishes an exemption.

Payments subject to information reporting may be subject to backup withholding unless the Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person or is otherwise establishes a basis for exemption from backup withholding (generally, by providing an applicable Form W-8). The certification procedures required to claim the exemption from withholding tax on interest, described above, will also be sufficient to avoid backup withholding.

Backup withholding is not an additional tax. Any amount withheld may be credited against a Non-U.S. Holder's U.S. federal income tax liability or refunded to the extent it exceeds such holder's liability and the relevant information is timely furnished to the U.S. IRS.

FATCA Withholding

Payments to a Non-U.S. Holder of interest on a Note issued by AstraZeneca Finance generally will be subject to a 30 per cent. gross basis withholding tax in the case of interest paid to a "foreign financial institution" or a "non-financial foreign entity" within the meaning of Sections 1471 through 1474 of the Code and regulations and other guidance promulgated thereunder (collectively "**FATCA**"), unless certain procedural requirements are satisfied and certain information is provided to the IRS or such Non-U.S. Holder complies with certain requirements under laws, regulations or other guidance implementing an intergovernmental agreement between the United States and such Non-U.S. Holder's home jurisdiction, and certain information is provided to the tax authorities in the Non-U.S. Holder's home jurisdiction. Under proposed U.S. Treasury Regulations published on 18 December 2018, upon which a Non-U.S. Holder may rely until final U.S. Treasury Regulations are issued, payments of gross proceeds from the sale, retirement or other disposition of a Note issued by AstraZeneca Finance will not be subject to FATCA withholding. Payments with respect to Notes issued by AstraZeneca PLC generally should not be subject to FATCA withholding.

SUBSCRIPTION AND SALE

Notes may be sold from time to time by any of the Issuers to any one or more of Banco Santander, S.A., Barclays Bank PLC, BNP PARIBAS, Citigroup Global Markets Limited, Deutsche Bank AG, London Branch, Goldman Sachs International, HSBC Bank plc, J.P. Morgan Securities plc, Merrill Lynch International, Mizuho International plc, Morgan Stanley & Co. International plc, Skandinaviska Enskilda Banken AB (publ) and Société Générale (the "**Dealers**"). The arrangements under which Notes may from time to time be agreed to be sold by the Issuers to, and purchased by, Dealers are set out in an amended and restated dealer agreement dated 9 June 2026 (the "**Dealer Agreement**") and made between the Issuers, the Guarantor and the Dealers. Any such agreement will, inter alia, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuers in respect of such purchase. The Dealer Agreement also makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

United States of America

The Notes and the guarantee thereof have not been, and will not be, registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered, delivered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) except in certain transactions exempt from the registration requirements of the Securities Act.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has agreed that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes or the guarantee thereof, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche within the United States or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Prohibition of Sales to EEA Retail Investors

Unless the applicable Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the applicable Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision the expression "**retail investor**" means a person who is one (or more) of the following:

- a) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**EU MiFID II**"); or
- b) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II.

Public Offer Selling Restrictions Under the EU Prospectus Regulation

If the Final Terms in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", in relation to each Member State of the European Economic Area, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree,

that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- a) *Qualified investors*: at any time to any legal entity which is a qualified investor as defined in the EU Prospectus Regulation;
- b) *Fewer than 150 offerees*: at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the EU Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- c) *Other exempt offers*: at any time in any other circumstances falling within Article 1(4) of the EU Prospectus Regulation,

provided that no such offer of Notes referred to in a) to c) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation. For the purposes of this provision, the expression an **"offer of Notes to the public"** in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression **"EU Prospectus Regulation"** means Regulation (EU) 2017/1129.

Prohibition of Sales to UK Retail Investors

Unless the applicable Final Terms in respect of any Notes specifies the "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold, distributed or otherwise made available and will not offer, sell, distribute or otherwise make available any Notes which are the subject of this Base Prospectus as completed by the Final Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to any retail investor in the UK. For the purposes of this provision, the expression **"retail investor"** means a person who is not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA").

Public Offer Selling Restrictions Under the POATRs

If the Final Terms in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in the UK except that it may make an offer of such Notes to the public in the UK:

- a) at any time to any legal entity which is a qualified investor as defined in paragraph 15 of Schedule 1 to the POATRs;
- b) at any time to fewer than 150 persons (other than qualified investors as defined in paragraph 15 of Schedule 1 to the POATRs) in the UK subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuers for any such offer; or
- c) at any time in any other circumstances falling within Part 1 of Schedule 1 to the POATRs.

For the purposes of this provision, the expression an **"offer of Notes to the public"** in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to buy or subscribe for the Notes and the expression **"POATRs"** means the Public Offers and Admissions to Trading Regulations 2024.

This Base Prospectus, the Notes and any material or information contained or incorporated by reference herein in relation to the Notes have not been, and will not be, submitted to or approved/verified by or registered with the China Securities Regulatory Commission ("**CSRC**") or other relevant governmental and regulatory authorities in the PRC pursuant to relevant laws and regulations and thus may not be supplied to the public in the PRC or used in connection with any offer for the subscription or sale of the Notes in the PRC. Neither this Base Prospectus nor any material or information contained or incorporated by reference herein constitutes an offer to sell or the solicitation of an offer to buy any securities in the PRC.

The Notes may only be invested by PRC investors that are authorised to engage in the purchase of Notes of the type being offered or sold. PRC investors are responsible for obtaining all relevant government regulatory approvals/licences, verification and/or registrations themselves, including, but not limited to, any which may be required from the State Administration of Foreign Exchange, the CSRC, the China Banking and Insurance Regulatory Commission and other relevant regulatory bodies, and complying with all relevant PRC regulations, including, but not limited to, all relevant foreign exchange regulations and/or outbound investment regulations.

Singapore

Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold any Notes or caused any Notes to be made the subject of an invitation for subscription or purchase and it will not offer or sell any Notes or cause any Notes to be made the subject of an invitation for subscription or purchase, and it has not circulated or distributed, nor will it circulate or distribute, this Base Prospectus or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of any Notes, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in Section 4A of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the "**SFA**")) pursuant to Section 274 of the SFA or (ii) to an accredited investor (as defined in Section 4A of the SFA) pursuant to and in accordance with the conditions specified in Section 275 of the SFA.

General

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has complied and will comply with all applicable laws and regulations in each country or jurisdiction in or from which it purchases, offers, sells or delivers Notes or possesses, distributes or publishes this Base Prospectus or any Final Terms or any related offering material, in all cases at its own expense. Other persons into whose hands this Base Prospectus or any Final Terms comes are required by the Issuers and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or possess, distribute or publish this Base Prospectus or any Final Terms or any related offering material, in all cases at their own expense.

The Dealer Agreement provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in the paragraph headed "*General*" above.

Selling restrictions may be supplemented or modified with the agreement of the Issuers. Any such supplement or modification may be set out in the relevant Final Terms (in the case of a supplement or modification relevant only to a particular Tranche of Notes) or in a supplement to this Base Prospectus.

Certain of the Dealers and their respective affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuers and/or their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their

own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or the Issuers' affiliates. Certain of the Dealers or their respective affiliates that have lending relationships with the Issuers routinely hedge their credit exposure to such Issuers consistent with their customary risk management policies. Typically, such Dealers and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
