Connection to human health

Removing barriers and creating solutions for healthcare are essential for global health.

Supporting a healthy environment helps prevent the onset and progression of certain diseases and improve health outcomes.

Fostering a culture of doing the right thing across our worldwide operations, including our supply chain, promotes health and wellbeing.

Our ambitions for 2025

Work towards a future where all people have access to sustainable healthcare solutions for life changing treatment and prevention.

Demonstrate global leadership to proactively manage our environmental impact across all our activities and products.

Create positive societal impact and promote ethical behaviour in all markets across our value chain.
